Australia Wendy Patton,2019-07-15 Despite examples of vocational guidance practice being evident in Australia since the mid 1800s there remains a spasmodic and patchwork approach to practice across the country For decades it is a field which has been paradoxically boosted and challenged by changing economic and political agendas Repeated international national and State reviews emphasise the vital nature of a systemic national approach to career development however authors repeatedly lament the lack of a sustained focus on career activity as a major national priority There is no broad comprehensive historical reckoning of the history of career development theory and practice in Australia since this early period Career development theory and practice in Australia has been forged in partnership with developments in an international context In documenting the shared history with other countries the author significantly adds to the body of knowledge on career development as a field in Australia and internationally The book provides new understandings about the historical development of this field of knowledge and in particular the challenging and cyclical nature of its policy history

Voice of Glory Thomas E. Douglass,2024-01-12 Hailing from the small river town of Moundsville West Virginia Davis Grubb 1919 1980 became a key figure in the canon of Appalachian literature The author of ten novels and dozens of short stories and radio plays Grubb s writings as Tom Douglass observes catalogued his life and a turbulent life it was marked by the traumatic loss of both the family home and his father during the Great Depression the overbearing affections of his mother the fear of failure painful struggles with alcohol and drug abuse profligate spending and a conflicted sexuality Grubb

originally aspired to be a visual artist but thwarted by color blindness turned to writing instead honing his skills in the advertising industry Today he is best remembered for his first novel *The Night of the Hunter* 1953 a gripping story of a Depression era serial killer and his pursuit of two young children along the Ohio River This book spent twenty eight weeks on The New York Times best seller list and became the basis for a classic film directed by Charles Laughton starring Robert Mitchum Shelley Winters and Lillian Gish While his subsequent work never achieved that same level of popularity the fierce thematic oppositions he set forth in his debut novel between love and hate good and evil the corrupt and the pure the rich and the poor would inform his entire oeuvre Although Grubb s career took him to the great cities of New York Philadelphia and Los Angeles his work was always rooted in key emblems of his Appalachian childhood the river the state penitentiary and the largest Indian mound east of the Mississippi all in his native Moundsville In his works Douglass asserts Grubb was an avenging angel righting the wrongs of the past in his own life in his own country and putting trust in his own vision of divine love Off the page he was riven by personal demons more than once in danger of losing his life to self annihilation and to the self accusation that he was a fallen angel This biography the first ever written of Grubb captures his life and work in all their intriguing complexity THOMAS E DOUGLASS an associate professor of English at East Carolina University is the author of *A Room Forever The Life Work and Letters of Breece D J Pancake* He is also the fiction editor for the University of Tennessee Press s Appalachian Echoes series

The Relocating Spouse's Guide to Employment Frances Bastress,1989 *Aging and Biography* Gary M. Kenyon,James E. Birren,Jan-Erik Ruth,Johannes J.F. Schroots,Torbjorn Svensson,2004-01-01 Personal life narratives can serve as a rich source of new insights into the experience of human aging In this comprehensive volume an international team of editors and contributors provide effective approaches to using biography to enhance our understanding of adult development In addition to providing new theoretical aspects on aging and biography the book also details new developments concerning the practical use of different biographical approaches in both research and clinical work This is a landmark volume advancing the use of narrative approaches in gerontology *Labor Literature* ,1977

Experiencing Wages Peter Scholliers,Leonard Schwarz,2004-07-01 When discussing wages historians have traditionally concentrated on the level of wages much less on how people were paid for their work Important aspects were thus ignored such as how frequently were wages actually paid how much of the wage was paid in non monetary form whether as traditional perquisites or community relief especially when there was often insufficient coinage available to pay wages Covering a wide geographical area ranging from Spain to Finland and time span ranging from the sixteenth century to the 1930s this volume offers fresh perspectives on key areas in social and economic history such as the relationship between customs moral economy wages and the market changing pay and wage forms and the relationship between age gender and wages *A Hundred English Working-Class Lives, 1900-1945* Rebecca Ball,2024-07-11 Stanley Rice born in London in 1905 began his autobiography by stating that his life was an ordinary average life with all its ups and downs Stanley may have

described his life as ordinary and yet he lived through a period of rapid social change including two world wars Despite this Stanley assumed that his life story would be of little interest to most readers as he had not achieved great fame or any notable accolades This book argues that this is exactly why historians should focus on such life stories as there is much to be gained by focusing on memories of ordinary average lives as they can expand our knowledge of the past often revealing firsthand experiences that have been excluded from the historical record This book does not intend to be a general social history of the working class Rather it is a work of memory drawing upon a microhistory methodology to examine how a sample of one hundred working class autobiographers remembered and wrote about living through years that were punctuated by two worldwide conflicts and a global economic depression
