These drawings are intended to provide an example to individuals preparing drawings for permit submittal. While every construction project is unique, the basic information a city needs to order to determine whether or not a project complies with certain codes and ordinances does not change. The following basic information should be provided with permit submittals:

- **Site plan**
- **Elevations**
- **Foundation Plans**
- **Forming Plans**
- **Floor Plans**
- **Details**

Submitting accurate, scaled drawings containing adequate information and appropriate details for your project will help the permitting process go much smoother than starting from scratch.
