Reimagine Finance Tariq Munir,2025-08-29 Reinvent the future of finance leadership An imperative to lead in the Digital Age Reimagine Finance A CFO s Playbook to Leading in the Age of Data and AI by Tariq

Munir empowers today's finance leaders to navigate the rapidly evolving digital landscape with confidence and clarity. As the finance function faces increasing demands for strategic involvement beyond traditional roles, this book provides CFOs with battle-tested strategies to redesign and co-create the digital operating model, lead transformation, and turn finance into a strategic growth catalyst while fostering a culture of innovation. Drawing from years of research interviews with senior leaders and real-world case studies, this book is a comprehensive guide to equip CFOs with the tools and mindset needed to transform siloed structures into an interconnected data-driven network. The book demonstrates how digital capabilities like cloud computing, data democratisation, artificial intelligence, process mining, and the Internet of Things reshape the finance business and the competitive landscape. Throughout, it offers actionable strategies and playbooks to help finance leaders rearchitect their operating model and orchestrate a successful reimagining of the finance function. Inside the book, discover how digital ecosystems comprising cloud computing, big data analytics, and AI are revolutionising finance operations. Learn strategies to build a digital operating model that enables a seamless flow of data, collaboration, and innovation. Explore a comprehensive CFO's Playbook to lead, orchestrate, and co-create a business-focused, human-centric digital transformation. Master the key elements of building digital talent and a culture of transformation. Build strategies to lead with responsible and ethical AI and digital practices. Reimagine Finance is a must-read for CFOs, finance leaders, and anyone involved in transformation who seeks to master the art and science of leadership in the digital era. This is not another theoretical book; it is a practical guide for leaders to succeed in the digital age and position themselves as strategic partners in their organisations driving growth and innovation.

ICT Tools and Applications for Accessible Tourism Eusébio, Celeste, Teixeira, Leonor, Carneiro, Maria João, 2021-02-26. The contribution of tourism to create an inclusive society requires the adoption of new approaches and strategies that promote the accessibility of tourism destinations, allowing all people, regardless of their health condition, to enjoy tourism experiences. To accomplish this objective, it is of utmost relevance to promote the active involvement of all stakeholders of the tourism system: demand, supply, government entities, and educational institutions in the creation of accessible and adapted tourism products. However, the scarce literature in this area suggests that the people working in the tourism industry are not usually aware of several needs and travel constraints of persons with disabilities, and that the information delivered by traditional information sources to this market is frequently inadequate, inaccurate, or incomplete. Therefore, the information and communication technologies (ICTs) may have a crucial role to overcome the several travel constraints that these people face to plan and carry out a tourism trip, as well as to enable supply agents to develop accessible tourism products. Despite this, although in recent years research regarding accessible tourism has increased, the number of studies on the contributions of ICTs for the development of accessible research is scarce. *ICT Tools and Applications for Accessible Tourism* provides theoretical and practical contributions for accessible tourism in the growing tourism market for social responsibility issues and as an excellent business opportunity. Chapters within this critical
