King, 2013-09-13 This book features chapters that examine the various ways of belonging in the Middle East Belonging can mean fitting in feeling at home feeling a part this kind of belonging is profoundly social Belongings can be possessions objects closely associated with one's deepest notions of identity Both kinds of belongings pertain to people and the kindreds ethnic groups and nations and or states they call their own Belongings of both kinds are more often than not emplaced and territorialized All of the chapters treat Middle Eastern collectivities as sites of anguished cultural projects All use metaphor national territory as woman national resolve as cactus and so on None is reductionistic belonging is rendered in its complexity with its agonies as well as its joys All could be identified with a growing genre of work on belonging At the heart of each are the bonds that comprise belonging Each one

[Palestine's Horizon](#) Richard Falk, 2017-03-20 Richard Falk has dedicated much of his life to the study of the Israel Palestine conflict In *Palestine's Horizon* he brings his experiences to bear on one of the most controversial issues of our times After enduring years of violent occupation the Palestinian movement is exploring different avenues for peace These include

the pursuit of rights under international law through the UN and International Criminal Court and the new emphasis on global solidarity and non violent militancy embodied by the Boycott Divestment and Sanctions Campaign BDS In focusing on these new tactics of resistance Falk refutes the notion that the Palestinian struggle is a lost cause He also reflects on the legacy of Edward Said and the importance of his humanist thought in order to present a vision of peace that is mindful of the formidable difficulties of achieving a just solution to the long conflict

The Red Planet Bill Hatcher, 2024-04-16 We humans have an extraordinary capacity for compassion much of it in response to the atrocities we inflict on the planet its animals and each other The popular explanation for this paradox is that we evolved as carnivorous killer apes who gradually curbed our lust for violence with frequent exceptions by implementing humane social norms This explanation is so well worn especially in the American psyche that it epitomizes cliché So we could be forgiven for

believing it when nearly every word is fiction Current research shows that our original biological and social programming is nonviolent So what changed What turned us from goddess worshiping plant eating peacemakers into god worshiping animal eating warmongers Find out in this fresh avant garde nonfiction *The Red Planet Gendered Landscapes and Violent Inequalities* and learn how our intrinsically feminine predilection for peace may yet save us **Anti-Social Media** Kevin Foster,2021-08-31 Over the past decade the gravitational centre of contemporary conflict has shifted from the physical battlefield to the online battlespace where the ingenuity of non state actors has vexed governments and tested their militaries Devising new architectures of participation Al Qaeda and ISIS have weaponised social media and empowered their dispersed followers to organise communicate and dominate the information domain Kevin Foster shows how conventional militaries in the US Britain Israel and Australia have responded to this challenge by integrating social media into their systems and operations and the organisational and cultural impediments they have confronted Foster traces each military s social media journey appraising the strategies doctrine and policies developed to regulate its management and use From the ADFA Skype sex scandal to the IDF s sophisticated integration of the real and virtual spaces of war *Anti Social Media* examines the good the bad and the indifferent in the armed forces halting advance towards social media competence

Settler Colonialism Lorenzo Veracini,2024-09-30 Exploring the history and politics of a powerful and long lasting idea the creation and maintenance of European worlds outside of Europe This textbook provides a broad overview of settler colonialism in the modern era The author outlines how the founding of new societies was envisaged and practiced around the world illustrating the specific ways in which settler colonial projects tried to establish ideal and regenerated political bodies With an updated introduction and an additional chapter examining decolonisation and Indigenous recognition this second edition brings the study of settler colonialism up to the present day **The Wrong Story** Greg Shupak,2018-05-10 The *Wrong Story* lays bare the flaws in the way large media organizations present the Palestine Israel issue It points out major fallacies in the fundamental conceptions that underpin their coverage namely that Palestinians and Israelis are both victims to comparable extents and are equally responsible for the failure to find a solution that the problem is extremists often religiously motivated ones who need to be sidelined in favour of moderates and that Israel s uses of force are typically justifiable acts of self defense Weaving together the existing literature with new insights Shupak offers an up to date and tightly focused guide that exposes the distorted way these issues are presented and why each is misguided

Disappearing Palestine Jonathan Cook,2013-04-04 Palestine is fast disappearing Over many decades Israel has developed and refined policies to disperse imprison and impoverish the Palestinian people in a relentless effort to destroy them as a nation It has industrialized Palestinian despair through ever more sophisticated systems of curfews checkpoints walls permits and land grabs It has transformed the West Bank and Gaza into laboratories for testing the infrastructure of confinement creating a lucrative defence industry by pioneering the technologies needed for crowd control surveillance

collective punishment and urban warfare In this insightful and authoritative new book leading journalist Jonathan Cook examines the many different guises in which these experiments on the Palestinians are being carried out Accessible and comprehensive this is a powerful analysis of one of the most enduring and entrenched conflicts in contemporary world politics

Humor in Middle Eastern Cinema Gayatri Devi, 2014-12-01 While Middle Eastern culture does not tend to be associated with laughter and levity in the global imagination humor often satirical has long been a staple of mainstream Arabic film In *Humor in Middle Eastern Cinema* editors Gayatri Devi and Najat Rahman shed light on this tradition as well as humor and laughter motivated by other intent including parody irony the absurd burlesque and dark comedy Contributors trace the proliferation of humor in contemporary Middle Eastern cinema in the works of individual directors and from the perspectives of genre national cinemas and diasporic cinema *Humor in Middle Eastern Cinema* explores what humor theorists have identified as an emancipatory liberatory even revolutionary function to humor Among the questions contributors ask are How does Middle Eastern cinema and media highlight the stakes and place of humor in art and in life What is its relation to the political Can humor in cinematic art be emancipatory What are its limits for its intervention or transformation Contributors examine the region's masterful auteurs such as Abbas Kiarostami Youssef Chahine and Elia Suleiman and cover a range of cinematic settings including Egypt Iran Israel Lebanon Palestine Syria Tunisia and Turkey They also trace diasporic issues in the distinctive cinema of India and Pakistan This insightful collection will introduce readers to a variety of contemporary Middle Eastern cinema that has attracted little critical notice Scholars of cinema and media studies as well as Middle Eastern cultural history will appreciate this introduction to a complex and fascinating cinema

Lordship and Liberation in Palestine-Israel Muhannad Ayyash, 2025-07-22 This interdisciplinary book provides timely fresh perspective on Palestine Israel by rethinking the nature of settler colonial sovereignty and the relationship between land and people Muhannad Ayyash argues that this relationship comes in two distinct forms a settler colonial type practiced by the Israeli state that consists of lordship over land and people and a decolonial type seen in Palestinian popular organizing that he calls land as life a reciprocal bond The former is characterized by private ownership possession and violent expulsion of others the latter by communal ownership belonging to the land and opposition to the violence of expulsion Ranging widely across theory and history Ayyash contends that the opposition between these two types is at the core of the Palestinian Israeli struggle The choice before us today he concludes is between the continuation of the Israeli settler colonial project in particular and the project of colonial modernity in general or the commencement of a decolonial age in Palestine Israel and beyond Offering both novel theorizations and politically engaged analysis *Lordship and Liberation in Palestine Israel* illuminates how decolonial sovereignties represent an alternative to settler colonial violence

Truffles and Trash Kelly Alexander, 2024-10-25 On a fragile planet with spreading food insecurity food waste is a political and ethical problem Examining the collaborative sometimes scrappy institutional and community efforts to recuperate and redistribute food waste

in Brussels Belgium Kelly Alexander reveals it is also an opportunity for new forms of sociality Her study plays out across a diverse set of locations including a food bank with ties to the EU a social restaurant serving low cost meals made from supermarket surplus by an emergent immigrant labor force and a social inclusion program in an urban market with a zero food waste pop up caf Alexander argues that these efforts in concert with innovative policy effectively recirculate wasted food to new publics and produce what she terms a spectrum of edibility According to Alexander these models face challenges including reproducing the very power dynamics across race class and citizenship status they seek to circumvent They also mirror the challenges of the everyday operations of the European social welfare state which is increasingly reliant on NGOs to meet provisioning promises Yet she finds that they also move the needle forward to reduce food waste across one city providing an example for major urban centers around the world

Israel/Palestine Paul Drew Paul,2020-01-07 Since the early 1990s Israel has greatly expanded a system checkpoints walls and other barriers in the West Bank and Gaza that restrict Palestinian movement Israel Palestine examines how authors and filmmakers have grappled with the spread of these borders Focusing on the works of Elia Suleiman Raba i al Madhoun Ghassan Kanafani Sami Michael and Sayed Kashua it traces how political engagement in literature and film has shifted away from previously common paradigms of resistance and coexistence and has become reorganised around these now ubiquitous physical barriers Depictions of these borders interrogate the notion that such spaces are impenetrable and unbreakable imagine distinct forms of protest and redefine the relationship between cultural production and political engagement

Palestinian Literature and Film in Postcolonial Feminist Perspective Anna Ball,2012 Palestinian Literature and Film in Postcolonial Feminist Perspective is the first sustained study of gender consciousness in the Palestinian creative imagination Drawing on concepts from postcolonial feminist theory Ball analyses a range of literary and filmic works by major creative practitioners including Michel Khleifi Liana Badr Annemarie Jacir Elia Suleiman Mona Hatoum and Suheir Hammad and reveals a hitherto unrecognized trajectory in gender consciousness under development in the Palestinian imagination from the start of the twentieth century The book explores how these works resonate with questions of power identity nation resistance and self representation in the Palestinian imagination more broadly and asks how these gender conscious narratives transform our understanding of Palestine s struggle for postcoloniality Working at the cusp of postcolonial feminist and cultural enquiry Ball seeks to open up vital new directions in the interdisciplinary study of Palestine
