The image shows the internal components of an RV power converter. A green printed circuit board (PCB) is populated with various electronic components, including several blue integrated circuits, red electrolytic capacitors, and a vertical strip of silver terminal blocks. Numerous white wires are connected to these terminals and bundled together. The entire assembly is housed within a dark metal enclosure. A large black heat sink is visible in the lower-left corner, and a black power cord is connected to the bottom of the unit.
