Kenya National Assembly Official Record (Hansard) ,1960-04-12 The official records of the proceedings of the Legislative Council of the Colony and Protectorate of Kenya the House of Representatives of the Government of Kenya and the National Assembly of the Republic of Kenya Abolishing School Fees in Africa ,2009 Progress in literacy and learning especially through universal primary education has done more to advance human conditions than perhaps any other policy Our generation has the possibility of becoming the first generation ever to offer all children access to good quality basic education But it will only happen if we have the political commitment at the country as well as at the international level to give priority to achieve this first in human history And it will only happen if also those who cannot afford to pay school fees can benefit from a complete cycle of good quality primary education Investment in good quality fee free primary education should be a cornerstone in any government s poverty reduction strategy *Human Assessment and Cultural Factors* John W. Berry,S.H. Irvine,2013-11-11 Against the background of NATO s Istanbul conference of 1971 Cronbach and Drenth 1972 the Kingston conference shows that great progress has been made by the community of cross cultural psychologists The progress is as much in the psychology of the investigators as in the investigations being reported In 1971 the investigators were mostly strangers to each other Behind their reports lay radically different field experiences disparate research traditions and mutually contradictory social ideals Istanbul was not a Tower of Babel but participants did speak past each other Now a community exists thanks to the meetings of NATO and the International Association for Cross Cultural Psychology to flourishing journals and the Triandis et al 1980 Handbook The members tend to know each other can anticipate how their formulations will fall on the ears of others and accept superficially divergent approaches as making up a collective enterprise Ten years ago there was open conflict between those who confronted exotic peoples with traditional tests and applied traditional interpretations to the responses and the relativists who insisted that tasks test taking and interpretation cannot be standardized in the ways that matter Today s investigators are conscious of the need to revalidate tasks carried into alien settings they often prefer to redesign the mode of presentation and to attune the subject to test taking They face the difficulties squarely and recognize that even the best means of coping are only partially successful
