How to answer Multiple choice in board exam?

Test strategies:

- Read the directions carefully
Know if each question has one or more correct option
Know if you are penalized for guessing
Know how much time is allowed (this governs your strategy)
- Preview the test
Read through the test quickly and answer the easiest questions first
Mark those you think you know in some way that is appropriate
- Read through the test a second time and answer more difficult questions
You may pick up cues for answers from the first reading, or become more comfortable in the testing situation
- If time allows, review both questions and answers
It is possible you mis-read questions the first time
- Treat each option as a true-false question, and choose the "most true"

Strategies for answering difficult questions:

1. **Eliminate options you know to be incorrect**
If allowed, mark words or alternatives in questions that eliminate the option
2. **Give each option of a question the "true-false test:"**
This may reduce your selection to the best answer
3. **Question options that grammatically don't fit with the stem**
4. **Question options that are totally unfamiliar to you**
5. **Question options that contain negative or absolute words.**
Try substituting a qualified term for the absolute one.
For example, *frequently* for *always*; or *typical* for *every* to see if you can eliminate an option
6. **"All of the above:"**
If you know two of three options seem correct, "all of the above" is a strong possibility
