Investment in the Future

- [illegible]

Abstract—The purpose of this study was to determine the effect of a 10-week training program on the heart rate (HR) and energy expenditure (EE) of sedentary, middle-aged women. The subjects were 10 women, 40 to 50 years of age, who were sedentary and had no cardiovascular or pulmonary disease. The subjects were randomly assigned to a 10-week training program or a control group. The training program consisted of three sessions per week of aerobic exercise at 60% of maximum HR. The control group did not exercise. The subjects were monitored for HR and EE during the training program and at the end of the program. The results showed that the training program had a significant effect on HR and EE. The HR of the training group decreased significantly from 160 to 140 beats per minute (p < 0.05). The EE of the training group increased significantly from 1,800 to 2,200 kcal per day (p < 0.05). The control group did not show any significant changes in HR or EE. The results of this study suggest that a 10-week training program can improve the cardiovascular and metabolic health of sedentary, middle-aged women.

If you are submitting a paper, please follow the instructions carefully set out in the original article. If the editor is requesting the (re)submission of a paper, we strongly request you to follow all the relevant changes.

23. When configuring a multi-mount AFS, set `mountmnt` to your Netatun path: `mountmnt=/usr/bin/netatun`
24. If you're using the `afs` multi-mount method, add `afs` to the `mountmnt` path. For example, if you're using the `afs` multi-mount method, set `mountmnt=/usr/bin/netatun-afs`. This is required after the purchase of this type of multi-mount AFS, as pointing out the group appears in `group 1`.
25. Do not include the `FS` of `mountmnt`, as `FS` is deprecated.
26. When configuring the `afs` multi-mount, do not change the `afs` to the `afs` on the `afs` Netatun Client.

- Day and night periods that are longer than the standard 24 hours occur most commonly with the use of artificial or non-natural light sources. To those that are following the procedure to change to the standard 24-hour.
- Increased amounts of time will also come with the use of the standard time specifications, the length of the day may vary depending on the use and amount of light.
- The use of natural light is important, it may change the length of the day, but the procedure is designed to be a standard, so the length of the day will be the same as the standard 24-hour period.
- The use of natural light is important, it may change the length of the day, but the procedure is designed to be a standard, so the length of the day will be the same as the standard 24-hour period.

When you install your T-Value One Connection, improper installation of all four screws (50 combinations for One Connection) will void the warranty. Please, before installing, refer to the correct installation instructions. Failure to maintain proper ventilation may result in a variety of problems with the product.

- When a producer's price for the output rises or falls, it must adjust its output level accordingly. A rise in the price of the output will cause a producer to produce more, and a fall in the price of the output will cause a producer to produce less.
