

# Log Rules

$$\ln(m) + \ln(n) = \ln(mn)$$

1.  $\log_b(m) + \log_b(n) = \log_b(m \times n)$

Ex:  $\log_7(x) + \log_7(3)$

$$= \log_7(x \cdot 3) = \log_7(3x)$$

$$\ln(m) - \ln(n) = \ln\left(\frac{m}{n}\right)$$

*Understanding Neoliberal Rule in K-12 Schools* Mark Abendroth,Brad J. Porfilio,2015-06-01 The word fundamentalism usually conjures up images of religions and their most zealous followers Much less often the word appears in connection with political economy The phrase free market gives the connotation that capitalism is freedom Neoliberalism is the rise of global free market fundamentalism It reaches into nearly every aspect of our daily lives as it seeks to dominate and eliminate the last vestiges of public domains through wanton privatization and deregulation It degrades all that is public The good news is that a global community of resistance continues to struggle against neoliberal oppression Formal and informal education entities contribute to these struggles offering visions and strategies for creating a better future The purpose of this volume is twofold Several contributors will highlight how the neoliberal agenda is impacting educational policy formation teaching and learning and relationships

between K 12 schools and communities Other contributors will highlight how the global community has gradually become conscious of the ideological doctrine and how it is responsible for human suffering and misery The volume is needed because the growing body of educational research linked to exploring the impact of neoliberalism on schools and society fails to provide conceptual or historical understanding of this ideology It is also an important scholarly intervention because it provides insights as to why educators scholars and other global citizens have challenged the intrusion of market forces over life inside K 12 schools Teacher educators schoolteachers and anyone who yearns to understand what is behind the debilitating trend of commercial forces subverting humanizing educational projects would benefit from this volume Activists educators youth and scholars who seek strategies and visions for building democratic schools and a society would consider this volume essential reading

**The context of REDD+ in Vietnam** Pham, T.T.,Hoang, T.L.,Nguyen, D.T.,Dao, T.L.C.,Ngo, H.C.,Pham, V.H.,2019-09-23 Vietnam is acknowledged to be REDD pioneer country having adopted REDD in 2009 This paper is an updated version of Vietnam s REDD Country Profile which was first published by CIFOR in 2012 Our findings show that forest cover has increased since 2012 but enhancing or even maintaining forest quality remains a challenge Drivers of deforestation and degradation in Vietnam including legal and illegal logging conversion of forest for national development goals and commercial agriculture weak law enforcement and weak governance have persisted since 2012 up to 2017 However with strong political commitment the government has made significant progress in addressing major drivers such as the expansion of hydropower plants and rubber plantations Since 2012 Vietnam has also signed important international treaties and agreements on trade such as Voluntary Partnership Agreements VPAs through the European Union s EU Forest Law Enforcement These new policies have enhanced the role of the forestry sector within the overall national economy and provided a strong legal framework and incentives for forestuser groups and government agencies to take part in forest protection and development Nevertheless new market rules and international trade patterns also pose significant challenges for Vietnam where the domestic forestry sector is characterized by state owned companies and a large number of domestic firms that struggle to comply with these new rules The climate change policies national REDD strategy and REDD institutional setting has been refined and revised over time However uncertain and complex international requirements on REDD and limited funding have weakened the government s interest in and political commitment to REDD REDD policies in Vietnam have shown significant progress in terms of its monitoring reporting and verification MRV systems forest reference emission levels FREL and performance based and benefit sharing mechanisms by taking into account lessons learnt from its national Payment for Forest Environmental Services PFES Scheme Evidence also shows increasing efforts of government and international communities to ground forestry policies in a participatory decision making processes and the progress on developing safeguarding policies in Vietnam between 2012 and 2017 affirms the government s interest in pursuing an equitable REDD implementation Policy documents have fully recognized the need to give civil society organizations CSOs and ethnic groups political space and include them in decision making Yet participation remains token Government provision for tenure security and carbon rights for local households are still being developed with little progress since 2012 The effectiveness of REDD policies in addressing drivers of deforestation and degradation has not be proven even though the revised NRAP has recently been approved However the fact that drivers of deforestation and degradation are outside of the forestry sector and have a strong link to national economic development goals points to an

uneasy pathway for REDD The business case for REDD in Vietnam has not been proven due to an uncertain carbon market increasing requirements from donors and developed countries and high transaction and implementation costs Current efforts toward 3Es outcomes of REDD could be enhanced by stronger political commitment to addressing the drivers of deforestation from all sectors broader changes in policy framework that create both incentives and disincentives for avoiding deforestation and degradation cross sectoral collaboration and committed funding from both the government and developed countries *Oregon's Forest Products Industry and Timber Harvest, 2013 with Trends Through 2014* Eric A. Federal Register, 2013-04 **Today's Environmental Issues** Teri J. Walker, 2017-12-01 An accessible and impartial survey of the positions of the Republican and Democratic parties on the most pressing environmental issues of our time from climate change and wilderness preservation to air and water pollution Today's Environmental Issues Democrats and Republicans presents a unique perspective on party politics one that impartially identifies similarities and differences regarding an array of topics ranging from fracking sustainability and pesticides to logging and noise pollution Essays provide both historical information and up to date coverage of partisan opinions on today's environmental concerns Written for upper level high school students undergraduates and general audiences interested in environmental issues and partisan viewpoints this book enables readers to better understand the origins details differences and commonalities of partisan opinions surrounding today's environmental concerns Each environmental issue is unique with its own set of concerns and impacts particularly when viewed from a party perspective By examining a breadth of issues from the party viewpoint readers can understand how the parties could work together or in opposition depending on the environmental issue and that the parties may not always be polar opposites on every issue a characterization that is often portrayed in the media Each essay includes a sidebar that presents a quick look at the party line individuals who have shaped opinion or policy or key court decisions

**Vulnerability and the Legal Organization of Work** Martha Albertson Fineman, Jonathan W. Fineman, 2017-07-06 This book uses the concepts of vulnerability and resilience to analyze the situation of individuals and institutions in the context of the employment relationship It is based on the premise that both employer and employee are vulnerable to various social economic and political forces although differently so It demonstrates how in responding to those complementary institutional relationships of employer and employee the state unequally and inequitably favors employers over employees Several chapters included in this collection also consider how the state shapes creates and maintains through law the social identities of employer and employee and how that legal regime operates as the allocation of power and privilege This unique and fundamental role of the state in defining the employment relationship profoundly affects the respective abilities and degree of resiliency of actual employers and employees Other chapters explore how attention to the respective vulnerability and resilience of those who do and those who direct work in assessing the employment relationship can raise fundamental questions of social justice and suggest new avenues for critical engagement with labor and employment law Collectively

these pieces articulate a framework for imaging what would constitute an appropriately Responsive State in the employment context and how those interested in social justice might begin to use the concepts of vulnerability and resilience in their arguments

**Rules without Rights** Tim Bartley, 2018-02-08 Activists have exposed startling forms of labor exploitation and environmental degradation in global industries leading many large retailers and brands to adopt standards for fairness and sustainability This book is about the idea that transnational corporations can push these standards through their global supply chains and in effect pull factories forests and farms out of their local contexts and up to global best practices For many scholars and practitioners this kind of private regulation and global standard setting can provide an alternative to regulation by territorially bound gridlocked or incapacitated nation states potentially improving environments and working conditions around the world and protecting the rights of exploited workers impoverished farmers and marginalized communities But can private voluntary standards actually create meaningful forms of regulation Are forests and factories around the world actually being made into sustainable ecosystems and decent workplaces Can global norms remake local orders This book provides striking new answers by comparing the private regulation of land and labor in democratic and authoritarian settings Case studies of sustainable forestry and fair labour standards in Indonesia and China show not only how transnational standards are implemented on the ground but also how they are constrained and reconfigured by domestic governance Combining rich multi method analyses a powerful comparative approach and a new theory of private regulation *Rules without Rights* reveals the contours and contradictions of transnational governance Transformations in Governance is a major new academic book series from Oxford University Press It is designed to accommodate the impressive growth of research in comparative politics international relations public policy federalism environmental and urban studies concerned with the dispersion of authority from central states up to supranational institutions down to subnational governments and side ways to public private networks It brings together work that significantly advances our understanding of the organization causes and consequences of multilevel and complex governance The series is selective containing annually a small number of books of exceptionally high quality by leading and emerging scholars The series targets mainly single authored or co authored work but it is pluralistic in terms of disciplinary specialization research design method and geographical scope Case studies as well as comparative studies historical as well as contemporary studies and studies with a national regional or international focus are all central to its aims Authors use qualitative quantitative formal modeling or mixed methods A trade mark of the books is that they combine scholarly rigour with readable prose and an attractive production style The series is edited by Liesbet Hooghe and Gary Marks of the University of North Carolina Chapel Hill and Walter Mattli of the University of Oxford

**Predictable and Avoidable** Ivo

Pezzuto,2016-04-08 Much has been said and written about the financial tsunami and subsequent economic dislocation that occurred in the opening decade of the 21st Century Professor Ivo Pezzuto is described by business scholars as an expert on the global financial crisis He has lectured about it at conferences and seminars written some of the most read and quoted papers contributed to what is considered the most authoritative book on the subject and to one of the best known US based blogs dealing with it In Predictable and Avoidable Dr Pezzuto offers business school students academics and industry experts in the fields of finance risk management audit corporate governance economics and regulation a truly independent and unbiased analysis of the financial crises starting in 2007 and one of the first fully considered expositions of the financial governance and regulatory reforms needed for the future Augmented with personal interviews involving selected global thought leaders and industry experts the author s narrative focuses on the technical issues that led to the global crisis but also addresses the human cultural and ethical aspects of the events from both sociological and managerial perspectives The book exposes the root causes and contributes significantly to the debate about the change needed in the banking and finance industries and to supervisory frameworks and regulatory mechanisms This analysis enables readers to understand that the crisis we have seen was predictable and should have been avoidable and that a recurrence can be avoided if lessons are learned and the right action taken

**Literacy Policies and Practices in Conflict** Nancy Rankie Shelton,Bess

Altwerger,2014-12-05 Current U S school reform efforts link school success student achievement and teacher performance to standardized tests and narrowly prescribed curricula How do test driven mandated curricula in urban school systems overtly and subtly impact teachers efforts to provide technologically advanced challenging classroom environments that foster literacy development for all students How do these federal policies affect instruction at the classroom level The premise of this book is that in order for teachers to confront and or counteract the pressures placed on them from these policies it is necessary to first understand them This book takes a close look at the tensions that exist between federal mandates and contemporary literacy needs and how those tensions impact classroom practices Providing a clear sociopolitical overview and analysis it combines theoretical explanations with examples from current ethnographic research Readers are challenged to reconsider whether meeting test performance benchmarks should be the hallmark of school success when the goal of test performance supersedes the goal of producing highly literate productive citizens of the future

**Elephants Under Human**

**Care** Paul A. Rees,2020-09-27 This book draws together for the first time the published research on the behaviour ecology and welfare of elephants living in zoos circuses logging camps and other captive environments in a single comprehensive volume It takes a multi disciplinary approach considering the work of zoo biologists animal behaviour and welfare scientists veterinarians philosophers zoo educators tourism specialists conservation biologists lawyers and others with a professional interest in elephants Elephants under Human Care The Behaviour Ecology and Welfare of Elephants in Captivity is a valuable resource for zoo biology and animal welfare researchers It is also useful for students and zoo professionals and managers

looking for a comprehensive guide to current research on captive elephants Although not intended as a husbandry manual the book discusses some of the elephant welfare standards developed by the Association of Zoos and Aquariums AZA and the British and Irish Association of Zoos and Aquariums BIAZA and their relationship to current knowledge of captive elephants Includes results of captive studies compared with field studies of wild elephants Features original images of elephant behaviour as they live and behave under human care Includes results of the author's original research including many original photographs Considers future implications of research for the welfare and conservation of elephants both for elephants in captivity and those living in the wild *Global Environmental Protection through Trade* Barbara

Cooreman, 2017-04-28 Despite an increasing global awareness of environmental concerns setting internationally binding and ambitious commitments has proven exceedingly complex As states are seeking alternative methods to support global environmental protection this book takes a closer look at the possibility of using national trade measures that make market access conditional on the environmental impact of the production process abroad **Transforming Higher Education**

**Through Digitalization** S. L. Gupta, Nawal Kishor, Niraj Mishra, Sonali Mathur, Utkarsh Gupta, 2021-11-10 Higher education is dynamic constantly adapting to meet the requirements of students and industry Transforming Higher Education Through Digitalization Insights Tools and Techniques provides insights from experienced academicians on the digitalization of education and its appropriateness for enhancing the quality of teaching in institutions of higher education The book also provides insights on technologies used in digital education the competencies and skills required by teachers and students managing quality of education through online modes MOOCs Massive Open Online Courses and methods to support teachers and instructors in online education The book also enables teachers and instructors to help students develop the knowledge and skills they need in a digital age and enable them to build collaborative learning that will bring them success Written for educators students and policy makers of higher education this book demonstrates how to transform traditional education to digital education and to continue their activities without the requirement of students and teachers meeting each other on campus The Constitution of the Environmental Emergency Jocelyn Stacey, 2018-04-19 This book argues for a reframing of

environmental law It starts from the premise that all environmental issues confront lawmakers as emergencies Environmental issues pose a fundamental challenge to law because it is impossible to reliably predict which issues contain the possibility of an emergency and what to do in response to such an unforeseen event These features undermine the conventional understanding of the rule of law This book argues that approaching environmental issues from the emergency perspective leads us to an understanding of the rule of law that requires public justification This requirement recentres the debates in environmental law around the question of why governance under the rule of law is something worth having in the environmental context It elaborates what the rule of law requires of decision makers in light of our ever present vulnerability to catastrophic environmental harm Controversial compelling and above all timely this book presents an important new

perspective on environmental law      The context of natural forest management and FSC certification In Indonesia Claudia Romero, Francis E Putz, Manuel R Guariguata, Erin O Sills, Ahmad Maryudi, Ruslandi, 2015-07-01 Management decisions on appropriate practices and policies regarding tropical forests often need to be made in spite of innumerable uncertainties and complexities Among the uncertainties are the lack of formalization of lessons learned regarding the impacts of previous programs and projects Beyond the challenges of generating the proper information on these impacts there are other difficulties that relate with how to socialize the information and knowledge gained so that change is transformational and enduring The main complexities lie in understanding the interactions of social ecological systems at different scales and how they varied through time in response to policy and other processes This volume is part of a broad research effort to develop an independent evaluation of certification impacts with stakeholder input which focuses on FSC certification of natural tropical forests More specifically the evaluation program aims at building the evidence base of the empirical biophysical social economic and policy effects that FSC certification of natural forest has had in Indonesia as well as in other tropical countries The contents of this volume highlight the opportunities and constraints that those responsible for managing natural forests for timber production have experienced in their efforts to improve their practices As such the goal of the studies in this volume is to serve as the foundation to design an impact evaluation framework of the impacts of FSC certification of natural forests in a participatory manner with interested parties from institutions and organizations to communities and individuals
