Guinea International Monetary Fund. African Dept., 2016-04-04 This report reviews Guinea's economic performance under the program supported by an Extended Credit Facility (ECF) arrangement. Guinea was declared free of the Ebola epidemic at the end of 2015 and after two years of stagnant activity, growth is expected to rebound this year. After solid performance in 2014, ECF program implementation weakened in 2015. Following last October's Presidential elections, there has been a concerted effort to bring the ECF supported program back on track. Macroeconomic policies for 2016 aim to improve reserves coverage to three months of imports and keep inflation within single digit figures as envisioned in the 2015 ECF supported program. The 2016 budget envisions a significant broad-based fiscal contraction.
