The How-to Guide to Home Health Therapy Documentation Cindy Krafft, 2011-06

Legal Aspects of Documenting Patient Care for Rehabilitation Professionals Ronald W. Scott, 2006

Because communication among health care professionals can mean the difference between patient life and death, clear and effective patient care documentation is as important as the delivery of care itself. The rehabilitation professional faces formidable documentation responsibilities. Patient care documentation created by the rehabilitation professional must be accurate, comprehensive, concise, objective, and timely. In an interdisciplinary health care environment, documentation must also be expeditiously communicated to other professionals on the health care team.

Complete and accurate documentation is one of the most important skills for a physical therapist assistant to develop and use effectively. The new Second Edition of *Documentation Basics: A Guide for the Physical Therapist Assistant* continues the path of teaching the student and clinician documentation from A to Z. Mia Erickson and Rebecca McKnight have updated this Second Edition to reflect changes of the American Physical Therapy Association and the ever-evolving profession. Updated inside *Documentation Basics: A Guide for the Physical Therapist Assistant* Second Edition. The discussion on integrating disablement into documentation. The discussion on how a PTA can show medical necessity and need for skilled care. The discussion on using documentation to communicate with other providers. Writing the assessment and plan to coincide with the initial documentation. Sample notes completed on forms. More examples and practice including physical agents, school-based services, paediatrics, traumatic brain injury, spinal cord injury, and interventions consistent with the *Guide to Physical Therapist Practice*. Medicare reimbursement in different settings. The importance of consistent, reliable, and valid measurements. How to improve communication and consistency between documentation by the PT, the PTA. The discussion on disablement has also been updated, shifting away from the Nagi Model toward the International Classification of Functioning, Disability, and Health (ICF). In addition, the PTA Normative Model has been integrated throughout to include more information on clinical decision making. New inside *Documentation Basics: A Guide for the Physical Therapist Assistant* Second Edition. Navigating the PT plan of care: A step-by-step model for PTAs to use as they navigate the initial PT documentation and plan of care. Aging issues related GAO products in calendar years 2001 and 2002. , **Documentation and Reimbursement for Speech-Language Pathologists** Nancy Swigert, 2024-06-01 Although it is the least noticed by patients effective documentation is one of the most critical skills that speech language pathologists must learn With that in mind

Documentation and Reimbursement for Speech Language Pathologists Principles and Practice provides a comprehensive guide to documentation coding and reimbursement across all work settings. The text begins with section 1 covering the importance of documentation and the basic rules both ethical and legal followed by an exploration of the various documentation forms and formats. Also included are tips on how to use electronic health records as well as different coding systems for diagnosis and for procedures with an emphasis on the link between coding reimbursement and the documentation to support reimbursement. Section 2 explains the importance of focusing on function in patient centered care with the ICF as the conceptual model then goes on to cover each of the types of services speech language pathologists provide evaluation treatment planning therapy and discharge planning. Multiple examples of forms and formats are given for each. In section 3 Nancy Swigert and her expert team of contributors dedicate each chapter to a work setting in which speech language pathologists might work whether adult or pediatric because each setting has its own set of documentation and reimbursement challenges. And since client documentation is not the only kind of writing done by speech language pathologists a separate chapter on other professional writing includes information on how to write correspondence avoid common mistakes and even prepare effective PowerPoint presentations. Each chapter in Documentation and Reimbursement for Speech Language Pathologists contains activities to apply information learned in that chapter as well as review questions for students to test their knowledge. Customizable samples of many types of forms and reports are also available. Included with the text are online supplemental materials for faculty use in the classroom. Documentation and Reimbursement for Speech Language Pathologists Principles and Practice is the perfect text for speech language pathology students to learn these vital skills but it will also provide clinical supervisors new clinicians and speech language pathologists starting a private practice or managing a department with essential information about documentation coding and reimbursement.
