Cityscapes of the Future, 2018-02-27 *Cityscapes of the Future: Urban Spaces in Science Fiction* offers an examination of the central role played by urban spaces in science fictional narratives in various media forms from the literary to the ludic to the cinematic. Our contributors reflect on the ways diverse urban scenarios are central to the narratives, science fictional imaginary and consider the pivotal roles cityscapes play in underscoring major thematic concerns such as political struggles, social inequality and other cultural epistemologies. The chapters in the collection are divided into three sections examining the city and the body, cities of estrangement and cities of the imagination.

China Miéville Tony Venezia, Sherryl Vint, Raphael Zähringer, Dougal McNeill, Joe Sutliff Sanders, Paul March-Russell, Ben De Bruyn, Matthew Sangster, Anthony F. Lang, Jr., Mark P. Williams, Roger Luckhurst, 2015-12-01 The chapters in this collection respond to the range of interests that have shaped Miéville's fiction from his influential role in contemporary genre debates to his ability to pose serious philosophical questions about state control, revolutionary struggle, regimes of apartheid and the function of international law in a globalized world. This collection demonstrates how Miéville's fictions offer a striking example of contemporary literature's ability to imagine alternatives to neoliberal capitalism at a time of crisis for leftist ideas within the political realm.

Global Frankenstein Carol Margaret Davison, Marie Mulvey-Roberts, 2018-10-15 Consisting of sixteen original essays by experts in the field including leading and lesser known international scholars, *Global Frankenstein* considers the tremendous adaptability and rich afterlives of Mary Shelley's iconic novel *Frankenstein* at its bicentenary in such fields and disciplines as digital technology, film, theatre, dance, medicine, book illustration, science fiction, comic books, science and performance art. This ground-breaking celebratory volume edited by two established Gothic Studies scholars reassesses *Frankenstein*'s global impact for the twenty-first century across a myriad of cultures and nations from Japan, Mexico and Turkey to Britain, Iraq, Europe and North America. Offering compelling critical dissections of reincarnations of *Frankenstein*, a generically hybrid novel described by its early reviewers as a bold, bizarre and impious production by a writer with no common powers of mind, this collection interrogates its sustained relevance over two centuries during which it has engaged with such issues as mortality, global capitalism, gender, race, embodiment, neoliberalism, disability, technology and the role of science.

The Cambridge Companion to the Twentieth-Century English Novel Robert L. Caserio, 2009-04-30 The twentieth-century English novel encompasses a vast body of work and one of the most important and most widely read genres of literature. Balancing close readings of particular novels with a comprehensive survey of the last century of published fiction, this Companion introduces readers to more than a hundred major and minor novelists. It demonstrates continuities in novel writing that bridge the century's pre and post-war halves and presents leading critical ideas about English fiction's themes and forms. The essays examine the endurance of modernist style throughout the century, the role of nationality and the contested role of the English language in all its forms and the relationships between realism and other

inordinately readable and just as rigorous account of Mi ville s major novels Highly recommended Mark Bould University of the West of England Freedman offers a compelling interpretation of Mi ville s novels informed equally by an impressive range of literary influences and a carefully documented exploration of historical antecedents Seeing Mi ville s genre hybridity as an illustration of the power of dialectical thinking Freedman illuminates the complex utopian project of Mi ville s fiction Freedman is one of our finest critical voices on Mi ville one of the most important speculative writers of the 21st century Sherryl Vint University of California Riverside
