We Must Begin with the Land Stephen Hunt, 2025-04-29 A polyculture of ideas decolonising reframing and transforming how we think about the things we grow through a social ecology lens

The Immaculate Conception of Data Kelly Bronson, 2022-08-15 Every new tractor now contains built in sensors that collect data and stream it to cloud based infrastructure Seed and chemical companies are using these data and these agribusinesses are a form of big tech alongside firms like Google and Facebook The Immaculate Conception of Data peeks behind the secretive legal agreements surrounding agricultural big data to trace how it is used and with what consequences Agribusinesses are among the oldest oligopoly corporations in the world and their concentration gives them an advantage over other food system actors Kelly Bronson explores what happens when big data get caught up in pre existing arrangements of power Her richly ethnographic account details the work of corporate scientists farmers using the data and activist hackers building open source data platforms Actors working in private and public contexts have divergent views on whom new technology is for how it should be developed and what kinds of agriculture it should support Surprisingly despite their differences these groups share a way of speaking about data and its value for the future Bronson calls this the immaculate conception of data arguing that this phenomenon is a dangerous framework for imagining big data and what it might do for society Drawing our attention to agriculture as an important new site for big tech criticism The Immaculate Conception of Data uniquely bridges science and technology studies critical data studies and food studies bringing to light salient issues related to data justice and a sustainable food system

Regenerating Cities Maria Elena Zingoni de Baro, 2022-01-18 This book sets out the discussion on how cities can contribute solutions to some of the challenges the urbanised world is facing such as the pressure of growing populations mitigation of effects of and adaptation to globally changing environmental climate and public health conditions Presenting a detailed explanation of the causes behind the current state of modern cities the book advocates for a paradigm shift to improve the quality of life of ever increasing urban inhabitants whilst nourishing the natural systems that sustain human and non human life in the planet

Recognising the precious role that nature plays in the functioning of cities it delves into the study of biophilic design and regenerative development The book argues that these social ecological design approaches can act as catalysts to develop conditions in urban settings that are beneficial for natural and human systems to thrive and flourish both in ecosystem services and social cultural systems This is particularly relevant for the design of new quality precincts or the regeneration of degraded urban spaces to promote health wellbeing and urban resilience A framework is proposed to guide the process of thinking about designing and building healthier more liveable and resilient urban environments that raise the quality of life in cities The method can be used by researchers practitioners urban designers urban planners architects and landscape architects interested in developing their work within a social ecological perspective It can also be used by local governments and agencies to underpin policy making and by educational institutions to prepare graduates with necessary skills to respond to current and future built environment challenges

Designing Urban Agriculture April Philips, 2013-05-10 A comprehensive overview of edible landscapes complete with more than 300 full color photos and illustrations Designing Urban Agriculture is about the intersection of ecology design and community Showcasing projects and designers from around the world who are forging new paths to the sustainable city through urban agriculture landscapes it creates a dialogue on the ways to invite food back into the city and pave a path to healthier communities and environments This full color guide begins with a foundation of ecological principles and the idea that the food shed is part of a city's urban systems network It outlines a design process based on systems thinking and developed for a lifecycle or regenerative based approach It also presents strategies tools and guidelines that enable informed decisions on planning designing budgeting constructing maintaining marketing and increasing the sustainability of this re-invented cityscape Case studies demonstrate the environmental economic and social value of these landscapes and reveal paths to a greener and healthier urban environment This unique and indispensable guide Details how to plan design fund construct and leverage the sustainability aspects of the edible landscape typology Covers over a dozen typologies including community gardens urban farms edible estates green roofs and vertical walls edible school yards seed to table food landscapes within parks plazas streetscapes and green infrastructure systems and more Explains how to design regenerative edible landscapes that benefit both community and ecology and explores the connections between food policy and planning that promote viable food shed systems for more resilient communities Examines the integration of management maintenance and operations issues Reveals how to create a business model enterprise that addresses a lifecycle approach

[The National Agricultural Directory 2009](#), 2009 *Design for Sustainability* Janis Birkeland, 2012-05-04 With radical and innovative design solutions everyone could be living in buildings and settlements that are more like gardens than cargo containers and that purify air and water generate energy treat sewage and produce food at lower cost Birkeland introduces systems design thinking that cuts across academic and professional boundaries and the divide between social and physical sciences to move towards a transdisciplinary approach to

environmental and social problem solving This sourcebook is useful for teaching as each topic within the field of environmental management and social change has pairs of short readings providing diverse perspectives to compare contrast and debate Design for Sustainability presents examples of integrated systems design based on ecological principles and concepts and drawn from the foremost designers in the fields of industrial design materials housing design urban planning and transport landscape and permaculture and energy and resource management

Positive Development Janis Birkeland, 2012-05-16 Janis Birkeland presents the innovative new paradigm of Positive Development in which the built environment provides greater life quality health amenity and safety for all without sacrificing resources or money With a different form of design development itself can become a sustainability solution A cornerstone of this new paradigm is the eco retrofitting of the vast urban fabric we already inhabit The author presents a revolutionary new tool called SmartMode to achieve this end This book challenges everyone working in or studying the areas of sustainable development planning architecture or the built environment to rethink their current ideas and practices

Towards a Just and Ecologically Sustainable Peace Joseph Camilleri, Deborah Guess, 2020-08-13 This book addresses the need to develop a holistic approach to countering violence that integrates notions of peace justice and care of the Earth It is unique in that it does not stop with the move toward articulating Just Peace as a human concern but probes the mindset needed for the shift to a Just and Ecologically Sustainable Peace It explores the values and principles that can guide this shift theoretically and in practice International in scope and grounded in the reality of Indigenous and non Indigenous Australia and the wider Asia Pacific context the book brings together important insights drawn from the Indigenous relationship to land ecological feminism ecological philosophy the social sciences more generally and a range of religious and non religious cosmologies Drawn from diverse disciplinary backgrounds the contributors in this book apply their combined professional expertise and active engagement to illuminate the difficult choices that lie ahead

The Food Forest Handbook Darrell Frey, Michelle Czolba, 2017-05-01 Learn how to mix and match plants in unique combinations to establish bountiful landscapes and create genuine self reliance in years to come A food forest is a productive landscape developed around a mix of trees and perennials Rooted in permaculture principles this integrated approach to gardening incorporates a variety of plants such as fruit and nut trees shrubs vines and perennial herbs and vegetables Food forests can help increase biodiversity protect valuable habitat for beneficial insects and promote food security and resilience all while providing an abundant harvest The Food Forest Handbook is a practical manual for the design and management of a home scale perennial polyculture garden Simple straightforward instructions guide the reader through Getting started site assessment and planning Tending the forest garden maintaining soil health succession planning mulching pruning and more The fruits of your labor crop profiles harvest storage nutrition and recipes This timely book makes the concept of food forests accessible to everyone offering a unique approach to low maintenance high yield sustainable food production What happens if we were to drop the boundary between

the built environment and nature Wouldn't we all be much better off The Food Forest Handbook guides our first steps along that path Albert Bates author of The Biochar Solution Through this in depth practical book you will learn the strategies for effective planning design establishment and management of perennial polycultures I recommend this book to all those who are bringing diversity to their planting schemes Jude Hobbs permaculture land use consultant designer and educator
