- Poverty is relative:
- Poverty occurs in all races and countries.
- SES is a continuous line, not a clear distinction.
- Generational poverty is different from situational.
- These statements are patterns not absolutes.
- Each SES level has its own hidden rules.
- Schools and business follow middle class rules.
- We must understand the hidden rules of those in different SES for them to be successful.
- Teach and provide support, do not scold for their hidden rules.
- To move from poverty to middle class, one must give up relationships for achievement.
- You need education and relationships to move from poverty.

An African Centered Response to Ruby Payne's Poverty Theory Jawanza Kunjufu, 2006 Challenges Ruby Payne s theories about the impact of class differences and economics on teaching and learning putting forward other factors as better predictors of student performance Kunjufu points to success stories in schools that serve low income students His refutation of Payne s popular teacher training program asserts that teacher expectations time on task and the principal s leadership are the main factors in determining educational outcomes at a school Abandoning Payne s framework of teacher student income disparities racial makeup and per pupil expenditure this critical analysis asserts the human component as the most powerful tool for improving education in failing schools From publisher description
