purposes that they have served at various historical moments Drawing on high literature erotica and popular romance fiction and films Teo examines the changing meanings of Orientalist tropes such as crusades and conversion abduction by Barbary pirates sexual slavery the fear of renegades the Oriental despot and his harem the figure of the powerful Western concubine and fantasies of escape from the harem She analyzes the impact of imperialism decolonization sexual liberation feminism and American involvement in the Middle East on women's Orientalist fiction Teo suggests that the rise of female authored romance novels dramatically transformed the nature of Orientalism because it feminized the discourse made white women central as producers consumers and imagined actors and revised reversed or collapsed the binaries inherent in traditional analyses of Orientalism
