

**MASTHEAD** includes title of newspaper. The font implies the legacy or age of the newspaper and that it can be trusted. The French "Dieu et mon droit" means "God and my right," comes from the coat of arms of the Royal Family: the paper is pro-monarchy, pro-religion, conservative in **VALUES** and **IDEOLOGIES**. It believes in free market economics, among many other beliefs.

#### DATELINE

#### INSIDE STORY

Contrasting images of two famous couples (**STAR POWER**) for the reader to compare/contrast male actors and ageing process. The paper is **MID-MARKET** which means it will focus on serious issues plus celebrity stories.

**SIDEBAR** with an unrelated story. First names are used as the audience are expected to know Meghan, Harry and their status. Reinforces pro-monarchy stance of paper as first names show familiarity with Harry/Meghan.

**IMAGE** (4 colour picture): slightly poor quality could mean it's been taken from social media.

**CAPTION** to explain image. "Estranged: Meghan, right, and her half-sister, Samantha." Fans of royal family will be keen to know more.

**PAGE LEAD:** the **COPY** or **BODY TEXT** that tells the story behind the headline.

#### 3 x CROSS-REFERENCES

1. SEE PAGES 30-31
2. SEE PAGE FIVE
3. Turn to Page 6

**KICKER** is the text above the headline. If it's below, call it the **STRAPLINE**. Audience will know what GPs means and the use of "treble" could be an alarming statistic – we don't know the period of time this trebling has taken.

**HEADLINE** uses colloquial language to convey its story: "hooked" suggests an addiction, "nation" signifies the UK and "happy pills" is a fairly derogatory term for anti-depression medication.

This is a negative portrayal of the medication since the phrase "happy pills" diminishes the seriousness of depression and of mental illness.

**BYLINE** of journalist 'Medical Correspondent' suggests specialist knowledge. Reinforces the view of the paper can be trusted.

#### HEADLINE & KICKER analysis

The headline and kicker provide a mix of factual and emotive language. The "A Nation Hooked" is an **ASSERTIVE STATEMENT** and suggests the event has happened/is still happening and cannot be reversed. The "heads towards top of world table" is usually something to be proud of in another **CONTEXT** (e.g. Olympic medal wins, education league tables) but here is negative. There is an implicit shame in being top of a statistical table of mental health medical treatment. The underlying **IDEOLOGY** could be that the newspaper disagrees with prescribing medicine for something that may be treatable by other means.

**COPY** analysis: it turns out that this study is from figures over the span of 15 years which makes the alarming **TONE** of the language the reporting uses potentially misleading.

**Qualitative Analysis Using NVivo** Nicholas H. Woolf, Christina Silver, 2017-09-20 Software is cut and dried every button you press has a predictable effect but qualitative analysis is open ended and unfolds in unpredictable ways This contradiction is best resolved by separating analytic strategies what you plan to do from software tactics how you plan to do it Expert NVivo users have unconsciously learned to do this The Five Level QDA method unpacks the process so that you can learn it consciously and efficiently The first part of the book explains how the contradiction between analytic strategies and software tactics is reconciled by translating between them The second part provides both an in depth description of how NVivo works and comprehensive instruction in the five steps of translation

These steps are illustrated with examples from a variety of research projects. The third part contains real world qualitative research projects from a variety of disciplines, methodologies and kinds of qualitative analysis, all illustrated in NVivo using the Five Level QDA method. The book is accompanied by three sets of video demonstrations on the companion website. The book and accompanying videos illustrate the Windows version of NVivo. As there are some differences in screen and interface design between the Mac and Windows versions, please watch the video 'The NVivo Mac Interface' in the Component Orientation series of videos available on the companion website. The Five Level QDA method is based on the authors' combined 40 years of experience teaching NVivo and other software packages used as platforms for conducting qualitative analysis. After many years observing their students' challenges, they developed the Five Level QDA method to describe the process that long time NVivo experts unconsciously adopt. The Five Level QDA method is independent of software program or methodology and the principles apply to any type of qualitative project. **Appraisal, Sentiment and Emotion Analysis in Political Discourse** Claudia Roberta Combei, Valeria Reggi, 2023-11-16. This book adopts a multi method multimodal approach to the study of online political communication, applying it to case studies from the United Kingdom, France and Italy, towards offering a portrait of the rapid ideological shifts in contemporary Western democracies. The volume introduces an integrated framework combining Sentiment and Emotion Analysis rooted in lexical semantics and the qualitative dimensions of Appraisal Theory, applying it to large corpora of online political communication from the United Kingdom, France and Italy. Combei and Reggi highlight their combined potential in analysing the multimodal resources in such discourses and in turn revealing fresh insights into layers of subtext and the ways in which parties and movements frame their political programmes and values. The authors also take into account culture and language specific variables across the three countries in shaping such discourses. The volume makes the case for an integrated methodological framework that can be uniquely applied to better understand the multimodal communicative landscape of divisiveness in today's rapidly shifting political climate and other forms of online communication more broadly. This book will be of interest to students and scholars in digital communication, political communication, multimodality and qualitative and quantitative discourse analysis, especially those interested in corpus assisted approaches.
