**Reflections of South African Student Leaders: 1994 to 2017** Ntokozo Bhengu, Denyse Webbstock, 2020-05-13 Reflections of South African Student Leaders 1994 2017

brings together the reflections of twelve former SRC leaders from across the landscape of South African universities Reviews of the previous volume 1981 2014 suggested that it contributed significantly to a better understanding of the stringent demands of visionary and transformative leadership required by university leaders in the fastchanging and increasingly complex public higher education sector This volume is based on comprehensive interviews with former student leaders each of whom provided a personal account in their own words of their experience in the position of student leadership The interviewees are from different backgrounds and of diverse political persuasions The book is important for current and future leaders of higher education institutions as it provides insights into the thinking aspirations desires fears and modus operandi of student leaders Such insight can contribute to developing and implementing appropriate strategies for achieving meaningful and constructive engagement with current and future student leaders

Redefining Education and Development Kaitano Dube, 2024-10-18 The book aligns with the United Nations Sustainable Development Goals SDGs particularly Goal 4 which focuses on quality education It explores the evolving role of education as a critical driver for achieving all 17 SDGs by providing a platform for discussing innovative educational models and theories that foster sustainable development The book takes an interdisciplinary approach merging educational theory developmental practice and human psychology to address complex global challenges hindering sustainable development The book includes case studies and empirical research such as exploring student entrepreneurship in the agricultural sector and the factors bridging the gap between entrepreneurial intention and venture creation These examples provide readers with practical applications of theoretical concepts and demonstrate the real world impact of educational innovations which is at the core of education delivery for all and how education touches on other areas of the SDGs The book offers valuable insights for policymakers educators and development practitioners by presenting research and theory based analyses It suggests ways to improve the academic environment to foster entrepreneurship and innovation which are key to economic development and job creation especially in regions with high youth unemployment rates The content suggests educational reforms that are responsive to the changing societal and economic landscapes The book's blend of theory and practice targets a broad audience including academic scholars students development agencies non governmental organisations and policymakers It seeks to engage these diverse readers in a conversation about the future of education and its role in achieving sustainable development In summary the book seeks to provide a comprehensive exploration of the nexus between education development and human needs in the context of the

SDGs offering innovative perspectives and practical solutions to equip readers to contribute to sustainable global development Campus Student Activism, Politics, and Citizenship in the 21st Century Tshishonga, Ndwakhulu, 2025-04-03

Student activism and citizenship remain an integral part of the governance of academic institutions democratizing the learning environment and advancing democratic values and societal change As a result student activism has become a key aspect of the global higher education landscape Individually and through the student councils students have been at the forefront fighting for social justice and equality inside their academic institutions and in larger society by fusing activism with citizenship Through student activism and citizenship students demonstrate their power to keep governments responsible and in redirecting the voices of students in higher education s decision making processes Further exploration may afford students the opportunity to influence social change by partaking in educational policy reforms and broadening global sociopolitical and economic growth Campus Student Activism Politics and Citizenship in the 21st Century examines the dynamics of campus politics through student activism and citizenship perspectives academia public private and civil society sectors It explores how student leadership engages university society stakeholders including management and governance structures and student welfare and institutional policy reformation in defense of the rights and interests of students This book covers topics such as higher education political engagement and social justice and is a useful resource for policymakers government officials sociologists political scientists academicians and researchers

**Achieving Nelson Mandela University?** Sibongile Muthwa, Denver A. Webb, 2024-08-20 South Africa s higher education sector is rooted in the country s divided past A significant State driven restructuring from around 1997 to 2005 resulted in what is largely the current configuration of public universities But just over two decades later for a variety of reasons the higher education sector in South Africa appears beset with numerous challenges Nelson Mandela University is one of the public universities that emerged from the restructuring process The university is in an ongoing state of evolution of becoming It developed out of the amalgamation of the University of Port Elizabeth Port Elizabeth Technikon and incorporation of the Port Elizabeth campus of Vista University as Nelson Mandela Metropolitan University in 2005 In 2017 it was renamed Nelson Mandela University after the world renowned statesman rather than the metropolitan area in which the university is primarily located The renaming was conceptualised as more than a marketing opportunity to rebrand the university but as an opportunity to reorientate the university to reposition Nelson Mandela University as an engaged and socially embedded university in the service of society striving to be the academic expression of the values and ethos of its iconic namesake Endeavouring to be something greater and different from the norm imbues its strategy public statements and practices The determination to achieve Mandela University serves or is intended to serve as both an organising principle and a lodestar A cross section of writers from different backgrounds situates Nelson Mandela University within the contemporary historical moment from which it emerged and examines its subsequent evolution While Nelson Mandela University has performed the usual work expected of any

university it has also sought to turn the university outwards to achieve a higher purpose framing itself as a values based university on a journey to become something else In Achieving Nelson Mandela University the university attempts to give an account of itself The book is an intellectual and scholarly reflection on where the university has come from and where it is seeking to go     Breaking a Rainbow, Building a Nation Rekgotsofetse Chikane,2018-10-01 Breaking a Rainbow Building a Nation is a first hand account of the university protests that gripped South Africa between 2015 and 2017 widely better known as the FeesMustFall Chikane outlines the nature of student politics in the country before during and after the emergence of MustFall politics exploring the political dynamics that informed and drove the student protests and the effect that these MustFall movements have had on the nature of youth politics in the country Chikane looks at how the current nature of youth politics is different from previous youth upheavals that have defined South Africa specifically due to the fact that the protests were being led by so called coconuts who are part of the black elite Breaking a Rainbow Building a Nation poses the provocative question can coconuts be trusted with the revolution     *Apartheid and Fragmented Protest in Contemporary Southern Africa* Cuthbeth Tagwirei,2025-09-26 Apartheid and Fragmented Protest in Contemporary Southern Africa examines protest movements through the lens of Apartheid Studies the first general theory of apartheid which explores how oppression harm injustice poverty loss and inequality persist The book argues that apartheid which breaks the world of the oppressed into fragments fomenting diverse experiences of oppression among its victims frames the nature and course of protests by making them subject to its fragmentation Protest is thus redefined as good neighbourly and demoted on account of its symbiotic relationship to apartheid It is observed that the proliferation of protests does not preclude the persistence of apartheid Rather protest and apartheid are seen to be compatible By examining protest hashtags on X from South Africa and Zimbabwe the book explores and identifies the forms relations meanings trajectories and effects protests take evoke and embody as fragments subsisting in a fractured apartheid universe It demonstrates how and why life goes on amidst protest sheds light on the contradictions paradoxes and complexities that characterise protest movements and invites conversations around protest as a paradigm in the context of apartheid The book will be of interest to researchers across the fields of social movements protests sociology African Studies and communication and media studies     A Better Future Jacqueline Bhabha,Wenona Giles,Faraaz Mahomed,2020-09-17 Policy makers advocates and scholars have long concentrated on the importance of equal access to primary and secondary education as a foundation for a democratic and just society Despite the growing importance of higher and specialist education in an increasingly technological and skill focused global market tertiary education has attracted much less attention And yet universities and colleges are epicentres of egregious disparities in access which impinge on traditionally marginalized communities such as racial minorities migrants indigenous populations and people with disabilities By drawing attention to this issue and assembling first rate material from scholars and policy makers across the globe this book performs an invaluable service for those interested in understanding and

fighting a highly significant violation of educational opportunity and social justice      Corrupted Jonathan D Jansen,2023-02 Through investigatory reports and interviews Jonathan Jansen reveals the structural conditions for chronic dysfunction in a sample of South African universities He reveals the political economy at work and the intense competition for resources on campuses He also provides interventions for these fragile institutions      Perspectives on Student Affairs in South Africa Speckman, McGlory,Mandew, Martin,2014-07-17 The goal of Perspectives on Student Affairs in South Africa is to generate interest in student affairs in South Africa The papers contained herein are based on best practice local experience and well researched international and local theories The papers in this book deal with matters pertaining to international and national trends in student affairs academic development access and retention counseling and material support for students coming from disadvantaged backgrounds They are linked to national and international developments as described in the first two papers This publication will assist both young and experienced practitioners as they grow into their task of developing the students entrusted to them All contributors are South Africans with a great deal of experience in student affairs and all are committed to the advancement of student affairs in South Africa The editors are former heads of student affairs portfolios at two leading South African universities      Lifestyle and Epidemiology Kotsedi Daniel Monyeke,Han C.G. Kemper,2021-10-06 Lifestyle and Epidemiology The Double Burden of Poverty and Cardiovascular Diseases in African Populations examines the profile of non communicable diseases NCDs in the rural South African population The burden of diseases in South Africa is characterized by a combination of poverty related diseases with emerging NCDs associated with urbanization industrialization and a Westernised lifestyle Chapters in this book examine the effects of poverty COVID 19 and other social factors on the prevalence of cardiovascular disease reproductive health and diabetes in rural South Africa      *Social Work in Social Change* Nicci Earle,2008 This study forms part of a series of studies on professions and professional education being conducted by the HSRC s research programme on Education Science Skills Development It follows a pilot study on medical doctors published in 2006 entitled Doctors in a Divided Society The profession and education of medical practitioners in South Africa Like the other studies in the series this study involved developing an understanding of the professional milieu and professional labour market of social workers As the implementers of government social policy social work professionals have been at the forefront of grappling with the practicalities of the changes in focus approach and methods of social security and social service delivery since 1994 It examines developments in the education and training of social workers within the democratic dispensation the most significant of which is the development of a national standardised Bachelor of Social Work degree The study also reveals that the dominant profile in student enrolment and graduation statistics has changed from white female to African female and that enrolment has increased significantly However the study also shows that graduation trends have been negative and losses due to emigration are an additional concern Given the scarcity of these professionals against the demand for their services understanding the factors that contribute to this picture are critical to effective

**Whiteness and Stigma in the Workplace** Anne Crafford, 2022-08-24 Drawing on theories of whiteness stigma identity formation and identity work this monograph aims to explore the ways in which racial categories continue to structure the lives of professionals of colour in South Africa Using a Bourdieusian lens it draws on personal narratives of professionals in the fields of accounting engineering and industrial psychology examining how stigma and whiteness continue to constrain their identity development in the public professional and personal spaces they inhabit Examining the unique post Apartheid situation of South Africa this book will be valuable reading to scholars interested in the intersection of race professions and organisation     **Shadow Libraries** Joe Karaganis, 2018-05-04 How students get the materials they need as opportunities for higher education expand but funding shrinks From the top down Shadow Libraries explores the institutions that shape the

provision of educational materials from the formal sector of universities and publishers to the broadly informal ones organized by faculty copy shops student unions and students themselves It looks at the history of policy battles over access to education in the post World War II era and at the narrower versions that have played out in relation to research and textbooks from library policies to book subsidies to more recently the several open publication models that have emerged in the higher education sector From the bottom up *Shadow Libraries* explores how simply students get the materials they need It maps the ubiquitous practice of photocopying and what are in many cases the more marginal ones of buying books visiting libraries and downloading from unauthorized sources It looks at the informal networks that emerge in many contexts to share materials from face to face student networks to Facebook groups and at the processes that lead to the consolidation of some of those efforts into more organized archives that circulate offline and sometimes online the shadow libraries of the title If Alexandra Elbakyan's Sci Hub is the largest of these efforts to date the more characteristic part of her story is the prologue the personal struggle to participate in global scientific and educational communities and the recourse to a wide array of ad hoc strategies and networks when formal authorized means are lacking If Elbakyan's story has struck a chord it is in part because it brings this contradiction in the academic project into sharp relief universalist in principle and unequal in practice *Shadow Libraries* is a study of that tension in the digital era Contributors Bal zs Bod Laura Czerniewicz Mirosław Filiciak Mariana Fossatti Jorge Gemetto Eve Gray Evelin Heidel Joe Karaganis Lawrence Liang Pedro Mizukami Jhessica Reia Alek Tarkowski *Contemporary Issues on Governance, Conflict and Security in Africa* Adeoye O. Akinola, 2023-05-25 This edited volume reflects on some of the important discussions on the trends of governance conflict and security in Africa It explores some of the emerging concerns and offers a holistic understanding of the remote and immediate causes of the conflict and how the neo colonial African states have been structured in a manner that makes violent conflict inevitable The book thereby provides an overview of Africa's security challenges and proffers some sustainable policy options for curtailing lawlessness and armed conflict on the continent Literature is exhaustive about the nexus between governance peace and security however discourse on the impact of new conflict on governance has been scant Understanding these new trends has become a necessity and precondition for sustainable development as reflected in both the African Union AU Agenda 2063 and the United Nations UN Sustainable Development Goals SDGs *Higher education for public good* Noluthando S. Matsiliza, 2023-03-01 This book focuses on the knowledge area of higher education governance organisational dynamics leadership and decolonisation We have observed that governance discourse has been excluded in debates that concern the public good The construct of public good seeks to support higher education that does not support a capitalist view of profit making arguably to respond to societal demands and needs such as developmental efforts through academic functions Higher Education focuses on interconnected multi disciplinary constructs intending to provide services for the public good The issue of public good is an interesting construct that puts universities on the spot since they are expected to be responsive to

environmental changes and stakeholder needs through the functioning of accountable governance structures These governance structures are compelled to comply with policy demands within external and internal environmental factors This experience has exposed universities to systematic challenges that are local regional and global and which forces them to adapt while serving stakeholders and society This book will also interrogate the governance of South African public universities in the post decolonisation era and new demands from stakeholders     **Annual Report** South Africa. Department of Education,2005     *Estimates of National Expenditure* South Africa,2006     **South Africa Survey** ,2008
