corruption The left does not like what has happened to us and it does not like what we have become Andrew Hindmoor argues that this history is wrong and self harming It is wrong because Britain has in many respects become a more politically attractive and progressive country over the last few decades It is self harming because this bleak history undermines faith in politics Post Brexit post Grenfell and post the 2010 2015 and 2017 general elections things may not right now look that great But looked at over the longer haul Britain is a long way from being a posterchild for neoliberalism Left wing ideas and arguments have shaped and continue to shape our politics
