The Liturgical Drama in Medieval Spain Richard B. Donovan, 1958

Spanish Drama Before Lope de Vega James Pyle Wickersham Crawford, 1922

The Intimate Screen Jason Jacobs, 2000 This book explores the formative period of British television drama concentrating on the years 1936-55. It examines the continuities and changes of early television drama and the impact this had upon the subsequent golden age. In particular it questions the caricature of early television drama as photographed stage plays and argues that early television pioneers in fact produced a diverse range of innovative drama productions using a wide range of techniques. It also explores the often competing definitions about the form and aesthetics of early television drama both inside and outside the BBC. Given the absence of an audio visual record of early television drama the book uses written archive material in order to reconstruct how early television drama looked and how it was considered by producers and critics whilst also offering a critical examination of surviving dramas such as Rudolph Cartier's *Nineteen Eighty Four*.

Words and Music in the Middle Ages John Stevens, John E. Stevens, 1986-10-16 This book examines the relation of words and music in England and France during the three centuries following the Norman Conquest. The basic material of the study includes the chansons of the troubadours and trouvères and the varied Latin songs of the period. In addition to these lyric forms the author discusses the relations of music and poetry in dance song in narrative and in the ecclesiastical drama. Professor Stevens examines the ready-made often unconscious and misleading assumptions we bring to the study and performance of early music. In particular he affirms the importance of Number in more than one sense as a clue to the aesthetic of the greater part of repertoire to the relation of words and melody and to the baffling problem of their rhythmic interpretation. This is the first wide-ranging study of words and music in this period in any language. It will be essential reading for scholars of the music and the literature of medieval Europe and will provide a basic and comprehensive introduction to the repertoire for students.

Creativity in Theatre Suzanne Burgoyne, 2018-09-14 People who don't know theatre may think the only creative artist in the field is the playwright with actors directors and designers mere interpreters of the dramatist's vision Historically however creative mastery and power have passed through different hands Sometimes the playwright did the staging In other periods leading actors demanded plays be changed to fatten their roles The late 19th and 20th centuries saw the rise of the director in which director and playwright struggled for creative dominance But no matter where the balance of power rested good theatre artists of all kinds have created powerful experiences for their audience The purpose of this volume is to bridge the interdisciplinary abyss between the study of creativity in theatre drama and in other fields Sharing theories research findings and pedagogical practices the authors and I hope to stimulate discussion among creativity and theatre scholar teachers as well as multidisciplinary research Theatre educators know from experience that performance classes enhance student creativity This volume is the first to bring together perspectives from multiple disciplines on how drama pedagogy facilitates learning creativity Drawing on current findings in cognitive science as well as drama teachers' lived experience the contributors analyze how acting techniques train the imagination allow students to explore alternate identities and discover the confidence to take risks The goal is to stimulate further multidisciplinary investigation of theatre education and creativity with the intention of benefitting both fields

Theatre of the Ridiculous Kelly I. Aliano, 2018-10-30 Theatre of the Ridiculous

is a significant movement that highlighted the radical possibilities inherent in camp. Much of contemporary theatre owes this form a great debt but little has been written about its history or aesthetic markers. This book offers a comprehensive overview of the important practitioners along with critical commentary of their work. Beginning with the most recognizable name, Charles Ludlam, the author traces the development of this campy queer genre from the B movies of Maria Montez to the Pop Art scene of Andy Warhol to the founding of the Play House of the Ridiculous and the dawn of Ludlam's career and finally to the contemporary theatre scene.

The Cambridge Companion to Greek and Roman Theatre Marianne McDonald, Michael Walton, 2007-05-31 This series of essays by prominent academics and practitioners investigates in detail the history of performance in the classical Greek and Roman world. Beginning with the earliest examples of dramatic presentation in the epic cycles and reaching through to the latter days of the Roman Empire and beyond, this 2007

Companion covers many aspects of these broad presentational societies. Dramatic performances that are text-based form only one part of cultures where presentation is a major element of all social and political life. Individual chapters range across a two thousand year timescale and include specific chapters on acting traditions, masks, properties, playing places, festivals, religion, and drama, comedy, and society, and commodity, concluding with the dramatic legacy of myth and the modern media. The book addresses the needs of students of drama and classics as well as anyone with an interest in the theatre's history and practice.

Vertigo Katalin Makkai, 2013-08-21 Released in 1958, *Vertigo* is widely regarded as Alfred Hitchcock's masterpiece and one of the greatest films of all time. This is the first book devoted to exploring the philosophical aspects of *Vertigo*. Following an introduction by the editor that places the film in context, each chapter reflects upon Hitchcock's film from a philosophical perspective. Topics discussed include memory, loss, memorialisation, and creativity; mimetic or representational art; and art as magic, the nature of romantic love, gender, sexual objectification, and identity; looking, the gaze, and voyeurism; film and psychoanalysis; fantasy, illusion, and reality; the phenomenology of colour. Including annotated further reading at the end of each chapter, this collection is essential reading for anyone interested in *Vertigo* and an ideal resource for students of film and philosophy.

Jane Austen on Screen Gina MacDonald, Andrew MacDonald, 2003-10-09 This collection of essays explores the literary and cinematic implications of translating Austen's prose into film. Contributors raise questions of how prose fiction and cinema differ, of how mass commercial audiences require changes to script and character, and of how continually remade films evoke memories of earlier productions. The essays represent widely divergent perspectives from literary purists suspicious of filmic renderings of Austen to film makers who see the text as a stimulus for producing exceptional cinema. This comprehensive study will be of interest to students and teachers alike.
