The Mainz Meeting Lars Johanson,Éva Ágnes Csató,1998 Turcology in Mainz has been pursued as general and comparative Turcology The 49 contributions to this conference reflect this interest and include titles on the history and linguistic structure of both Turkish and other Turkic languages The main focus of the volume is on Turkish linguistic issues A number of studies indifferent modern linguistic frameworks deal with Turkish morphological structures communicative functions and referentiality the function and syntax of converbs thecategory of voice Discussions on the structures of relative clauses constitute an important part of the volume Other fields of studies represented include language acquisition dialect studies language policy contact linguistics computer linguistics stylistics and applied linguistics The volume will be
