Hall, Leonard B. Hurley, 1927 *Let's Create Writers* Timothy Horan, 2021-10-21 In this book Dr Timothy Horan presents an original and highly effective writing program whose major goal is to transform middle school students into competent and confident writers. This writing program is innovative, rigorous and engaging and was designed with the student in mind. This book contains a total of twenty original writing assignments: ten for seventh grade and another ten for eighth grade. These assignments are based on middle school students' natural predilections and developmental levels and represent creative interpretations of the Common Core Writing Standards. Each writing project in this book is full and complete and is described with clarity and simplicity. Each assignment also includes a reproducible outline that presents the assignment to students in a simplified graphical format. The pedagogical philosophy underlying this program is simple and effective. It seeks to provide students with enjoyable writing assignments that students will understand, learn from and complete. As students progress through the program, they will develop an upbeat emotional bond with the act of writing and will learn to approach composition with a sense of optimism and confidence. Style and the Nineteenth-Century British Critic Professor Jason Camlot, 2013-04-28 In analyzing the nonfiction works of writers such as John Wilson, J. S. Mill, De Quincy, Ruskin, Arnold, Pater and Wilde, Jason Camlot provides an important context for the nineteenth-century critic's changing ideas about style, rhetoric and technologies of communication. In particular, Camlot contributes to our understanding of how new print media affected the Romantic and Victorian critic's sense of self as he elaborates the ways nineteenth-century critics used their own essays on rhetoric and stylistics to speculate about the changing conditions for the production and reception of ideas and the formulation of authorial character. Camlot argues that the early 1830s mark the moment when a previously coherent tradition of pragmatic rhetoric was fragmented and redistributed into the diverse localized sites of an emerging periodicals market. Publishing venues for writers multiplied at midcentury, establishing a new stylistic norm for criticism, one that affirmed style as the manifestation of English discipline and objectivity. The figure of the professional critic soon subsumed the authority of the polyglot intellectual, and the later decades of the nineteenth century brought about a debate on aesthetics and criticism that set ideals of Saxon-rooted virile style against more culturally inclusive theories of expression.
