

## Personal Leadership Profile

6 pages | 1349 words

The following pages consist of information about Leadership; I will have to admit I knew nothing about leadership and the many perspectives and ideas about Leadership and how to be an effective leader. I selected a Leader to study who is known as an effective leader and has made a difference in the world. Our world would not be the same if he had not made those choices to change his world that he lived in. I knew very little about the man that is known for his "radiant smile" and desired to know more about what caused him to be known throughout the world.

I had only heard that he spent years in prison and became the first Democratic President in his country. Throughout these pages you will read the analysis of my chosen Leader's style of effective leadership through six perspectives: trait, behavioral, situational, and constitutive which includes two theories of transactional and transformational leadership, and global leadership. I have also included a comparison of my leadership style with this "Great Man" in each of the six perspectives. Before comparing myself, I thought, I could never stand in the same room with this man, and now I am comparing myself to him.

To my amazement, there is a significant learning experience that one can gain in comparing yourself with someone great like this man. I found out who I am, who I want to become and what improvements need to be made to become an effective leader, no matter how big or small our leadership role is, in this world, in our sphere of influence, "We are all Leaders". I have concluded this paper with a personal leadership profile and a plan of leadership development that I will continue until I have become an effective Leader and have made a difference in my world, in my sphere of influence, in a positive and significant way.

**Personal Leadership Profile** The goal of my project is to examine the leadership qualities and practices of my selected leader and to also examine myself through a range of leadership perspectives. In the following pages I have examined six perspectives on leadership. I will conclude with a Personal Leadership Profile and a leadership development plan for myself. The name of my selected leader is Nelson Mandela. He was the first Democratic President in South Africa.

Before going into my research, I knew very little about Nelson Mandela. I noticed when great leaders were talked about his name was always included. What I do know, is that he was a leader in Africa and he spent 27 years in prison. I have also read many of his quotes that give me the impression that he has changed Africa and the world. One of his quotes that I paraphrased into my own words and I can relate to is when he said: I always look at the positive side of things versus the negative; being positive is always looking up towards the sun, and to keep moving forward.

There have been many trials...
