Physical Science Common Paper March 2014

Arturo Cuomo

Physical Science Common Paper March 2014:

Einstein's Destruction of Physics Peter Ćujak, 2018-02-09 This book is intended for anyone who is interested in a real physical image and order of the physical world surrounding us In this book Einstein's destruction of physics is documented The physical reality of gravity inertial forces mass time double slit experiment is debunked It shows that Quarks and Higgs bosons do not exist and that all elementary particles all rigid matter and all force fields in the Universe are created from compression of ether It shows that Einstein after 1916 became a more enthusiastic advocate of the proven existence of the ether than supporters of the ether before 1905 The aim of this book is to return physics from its way of metaphysics in the 20th century on the way of the physical reality in the 21st century This second edition of this book was augmented by twenty pages compared to its first edition After this augmentation it appears that the argumentation about the unacceptability of the ill founded physical theories of the 20th century represents a compact corpus
