**The Plague Dogs** Richard Adams, Robert Adams, 1983-12-12 *Animal Narratology* Joela Jacobs, 2020-12-15 Animal Narratology interrogates what it means to narrate to speak speak for on behalf of and to voice or represent life beyond the human which is in itself as different as insects bears and dogs are from each other and yet more as individual as a single mouse horse or puma The varied contributions to this interdisciplinary Special Issue highlight assumptions about the human perception of attitude toward and responsibility for the animals that are read and written about thus demonstrating that just as the animal does not exist neither does the human In their zoopoetic focus the analyses are aware that animal narratology ultimately always contains an approximation of an animal perspective in human terms and terminology yet they make clear that what matters is how the animal is approximated and that there is an effort to approach and encounter the non human in the first place Many of the analyses come to the conclusion that literary animals give readers the opportunity to expand their own points of view both on themselves and others by adopting another's perspective to the degree that such an endeavor is possible Ultimately the contributions call for a recognition of the many spaces moments and modes in which human lives are entangled with those of animals one of which is located within the creative bounds of storytelling

**Gothic Animals** Ruth Heholt, Melissa Edmundson, 2019-12-10 This book begins with the assumption that the presence of non human creatures causes an always already uncanny rift in human assumptions about reality Exploring the dark side of animal nature and the otherness of animals as viewed by humans and employing cutting edge theory on non human animals eco criticism literary and cultural theory this book takes the Gothic genre into new territory After the dissemination of Darwin s theories of evolution

nineteenth century fiction quickly picked up on the idea of the animal within. Here the fear explored was of an unruly, defiant, degenerate and entirely amoral animality lying mostly dormant within all of us. However, non-humans and humans have other sorts of encounters too, and even before Darwin, humans have often had an uneasy relationship with animals, which, as Donna Haraway puts it, have a way of looking back at us. In this book, the focus is not on the animal within but rather on the animal without other and entirely incomprehensible.

On God and Dogs Stephen H. Webb, 1998. Many of us keep pet animals; we rely on them for companionship and unconditional love. For some people, their closest relationships may be with their pets. In the wake of the animal rights movement, some ethicists have started to re-examine this relationship and to question the rights of humans to own other sentient beings in this way. In this engaging and thought-provoking book, Stephen Webb brings a Christian perspective to bear on the subject of our responsibility to animals, looked at through the lens of our relations with pets, especially dogs. Webb argues that the emotional bond with companion animals should play a central role in the way we think about animals in general, and against the more extreme animal liberationists, defends the intermingling of the human and animal worlds. He tries to imagine what it would be like to treat animals as a gift from God and indeed argues that not only are animals a gift for us, but they give to us; we need to attend to their giving and return their gifts appropriately. Throughout the book, he insists that what Christians call grace is present in our relations with animals just as it is with other humans. Grace is the inclusive and expansive power of God's love to create and sustain relationships of real mutuality and reciprocity, and Webb unfolds the implications of the recognition that animals too participate in God's abundant grace. Webb's thesis affirms and persuasively defends many of the things that pet lovers feel instinctively: that their relationships with their companion animals are meaningful and important, and that their pets have value and worth in themselves in the eyes of God. His book will appeal to a broad audience of thoughtful Christians and animal lovers.
