

FATHER OF GEOGRAPHY

Geography is the field of science that relates to the study of the Earth, its physical features, landmasses, seas, and oceans, the natural phenomena occurring on Earth, and the people who inhabit this planet and their interaction with their environment.

Physical Geography is a study of the planet Earth, its surface and the various patterns of :

The first person to have used the word Geography (Greek – Geographika) was Eratosthenes of Cyrene, the mathematician and astronomer from ancient Greece, widely regarded as the Father of Geography.

ERATOSTHENES OF CYRENE

- Born in **276 BC** in Cyrene, a Greek colony (in present-day Libya).
- Excelled in philosophy, mathematics, astronomy, and music.
- By **245 BC** he got the charge of the Great Library in Alexandria (Egypt) by Pharaoh Ptolemy III and then he compose his three volume treatise - Geographika.

Eratosthenes was the first known geographer to create a highly accurate map of the world, complete with grid lines resembling the latitudes and longitudes we use to plot various places on earth (in modern times).

Eratosthenes' greatest achievements include

Calculation of the Earth's Circumference
Result - **25,000 miles**
(error of only 100 miles)

Calculation of the tilt of the Earth on its own axis
Gave us the Leap Year calculation that we use till date.

In Praise of Philosophy Alain Badiou,2025-04-08 What kind of philosophy do we need for the 21st century To answer to this question Alain Badiou imagines a dialogue between Toc ras an earnest and engaging professor and various interlocutors from different countries and philosophical cultures John After from Britain Amantha from Greece B adj Akil from Senegal Xi La Pong from China and several others Their conversation takes readers on a playful journey through the history of philosophy framed by the five great questions that have preoccupied Alain Badiou democracy freedom universality language and being At the same time philosophy is presented not as a system or doctrine but as movement and dialogue The philosopher is not a solitary figure he is inseparable from his pupils his disciples and his adversaries It is only at the end of the journey that he arrives at the written stable forms of his work So we are dealing more with a play than a treatise more with dialogues than monologues more with a course than a book The obvious model is Plato s Socrates who in founding philosophy as a discipline ensured that it could be established anywhere in the world In praise yes of philosophy as the public creation of a thought that inventing itself and transporting itself anywhere speaking to anyone about anything invents the theatricalization of being

Arkography Gunnar Olsson,2020-05-01 In this fascinating text Gunnar Olsson tells the story of an arkographer who with Pallas Athene s blessings travels down the Red River Valley navigates the Kantian Island of Truth and takes a house tour through the Crystal Palace the latter edifice an imagination grown out of Gunnael Jensson s sculpture Mappa Mundi Universalis This travel story carries the arkographer from the oldest creation epics extant to the power struggles of today nothing less than a codification of the taken for granted a mapping of the no man s land between the five senses of the body and the sixth sense of culture By constantly asking how we are made so obedient and predictable the explorer searches for the present day counterparts to the biblical ark the chest that held the commandments and the rules of behavior that came with them hence the term arkography a word hinting at an as yet unrecognized discipline In *Arkography* Olsson strips bare the governing techniques of self declared authorities including those of the God of the Old Testament and countless dictators

the latter supported by a horde of lackeys often disguised as elected representatives and governmental functionaries From beginning to end Arkography is an illustration of how every creation epic is a variation on the theme of chaos turning into cosmic order A palimpsest of layered meanings a play of things and relations identity and difference One and many you and me
