The purpose of this letter is to verify that as the parent of the above named student, I have elected to Home School my child.

I understand that the Texas Supreme Court has ruled that a child who is home schooled is exempt from compulsory attendance in public schools.

I understand that I am responsible for assuring that a curriculum consisting of books, workbooks, or other written materials designed to meet the basic educational goals of reading, spelling, grammar, math, and a course in good citizenship shall be pursued in a bona fide manner.

While the district does not offer specific direction on home schooling guidelines, we provide the following Texas Education Agency link for your reference:

I understand that the Northside Independent School District is ready, willing and able to provide a free, appropriate public education to your child, which will be available should you choose to enroll. The placement of students who return to the Northside Independent School District from home school shall be consistent with placement of students from any unaccredited private school. The use of valid and reasonable assessment instruments and procedures for placement is permissible.

Sciarcon,2017-01-01 A history of the French schools that pioneered female education in Ottoman Iraq s Jewish communities During the late nineteenth and early twentieth centuries the Alliance Isra lite Universelle AIU a Paris based Jewish organization founded dozens of primary schools throughout the Middle East Many were the first formal educational institutions for local Jewish children In addition to providing secular education the schools attempted to change local customs and regenerate or uplift communities Educational Oases in the Desert explores the largely forgotten history of the AIU s schools for girls in Ottoman Iraq Drawing on extensive archival research Jonathan Sciarcon argues that teachers viewed female education through a gendered lens linked to their understanding of an ideal modern society As the primary educators of children women were seen as society s key agents of socialization The AIU thus concluded that its boys schools would never succeed in creating polished westernized men so long as women remained uneducated leading to the creation of schools for girls Sciarcon shows how headmistresses acted not just as educators but also as models of modernity trying to impart new moral and aesthetic norms onto students
