

Grade 7 Project Assessment Resource: Who Does Technology in the Working World?

- 1 Design your own idea (sketches of your new technology creation, making sure that your final creation is labeled). Select materials to create your design, ensuring the materials are easy to access. Create a list of your materials and write out steps to create your design.
- 2 Develop the manufacturing sequence and create your finished technology solution.
- 3 Present your research, design, drawings, and final creation to the class. You can choose to do this by putting all of your information together in a booklet or a PowerPoint presentation.
- 4 Evaluate your own design and presentation as well as a peer's design and presentation. Ask yourself these questions: What did I do well? What was I impressed with? What have you? How? What would I do differently next time? Ask the same questions for your peer's design and presentation.

Rubric

Originality/creativity	Is the idea original or an improvement on a past technology? Are the factors chosen innovative, relevant, and practical?
Requirements	Are the factors considered all the research questions? Was the student demonstrated through research before (sketches and design)? Are the factors chosen suitable and suitable materials?
Manufacture	Are the finished, PowerPoint presentation, sketches, and actual creation all presented, clear, without spelling errors, do they all have the same aim creation to that project?
Efficiency	Are the factors selected research source and final that correctly, without spelling errors?
Investigate work (if not working technology)	Did the factors have worked in groups or pairs, how they worked together, especially, allowing everyone to feel heard? Was everyone participated and provided equal input?
Final presentation	Did the factors work properly, make up content with the time, correct sequence with the guidelines, and did they all have the same aim creation to that project?

Who does Technology in the Working World?

Project Outline

Questions to ask:

- Who 'does' technology in the working world?
- Who works with technology in their job?
- Who creates new technologies?
- What are some new technology ideas that people could use in their jobs?

Task: Design and create your own new technology that can be used in the working world. Your creation can be a product, a tool, or even something used on the computer.

Steps:

- 1 Investigate, find, use, and acknowledge information. How will you decide what to create? Ask family and friends around you what they think is needed? Do some research online to find out if you need this technology. Don't forget to create a bibliography questions to consider:

Science And Technology Grade 7 Answers Introduction

In the digital age, access to information has become easier than ever before. The ability to download Science And Technology Grade 7 Answers has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Science And Technology Grade 7 Answers has opened up a world of possibilities. Downloading Science And Technology Grade 7 Answers provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Science And Technology Grade 7 Answers has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Science And Technology Grade 7 Answers. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Science And Technology Grade 7 Answers. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Science And Technology Grade 7 Answers, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Science And Technology Grade 7 Answers has transformed

the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.
