second edition are the addition of new material and revision of existing material New material includes subjects in which interest has expanded greatly in recent years e g AIDS and topics which were inadvertently overlooked before e g congenital adrenal hyperplasia Revision of existing material has been extensive with many detailed changes aimed at expanding the factual base while retaining or improving the clarity of explanation Finally and probably most important many of the changes are those which have been suggested by readers and reviewers of the first edition this feedback has been invaluable to the authors and we now hope will be equally valuable to readers of the new edition *List of Journals Indexed in Index Medicus* National Library of Medicine (U.S.),1996 Issues for 1977 1979 include also Special List journals being indexed in cooperation with other institutions Citations from these journals appear in other MEDLARS bibliographies and in MEDLING but not in Index medicus **Food and Nutrition Information and Educational Materials Center catalog** Food and Nutrition Information Center (U.S.),1976 **Rising Stars in Comparative and Clinical Medicine: 2022** Md.
