Data for Science and Technology Phyllis S. Glaeser, 2013-10-22 *Data for Science and Technology* covers the proceedings of the Seventh International CODATA Conference. This text is comprised of 133 chapters with a total of 180 papers from 400 hundred authors which cover CODATA concerned with environmental and energy questions along with problems of data banking and telecommunications network operations. This book provides valuable assessment of data and points out alternatives, trends and requirements for the future such as production and use of data in pure applied sciences, data for the development of human settlements in a dynamic world, informatical analysis of scientific research activities and data on our evolutionary heritage. Researchers from all scientific fields will find this book a great source reference material since it presents research from various disciplines. *Tep Vol 26-N2* Teacher Education and Practice, 2013-11-25 *Teacher Education and Practice* a peer refereed journal is dedicated to the encouragement and the dissemination of research and scholarship related to professional education. The journal is concerned in the broadest sense with teacher preparation practice and policy issues related to the teaching profession as well as being concerned with learning in the school setting. The journal also serves as a forum for the exchange of diverse ideas and points of view within these purposes. As a forum the journal offers a public space in which to critically examine current discourse and practice as well as engage in generative dialogue. Alternative forms of inquiry and representation are invited and authors from a variety of backgrounds and diverse perspectives are encouraged to contribute. *Teacher Education Practice* is published by Rowman Littlefield. *JSL Vol 26-N2* JOURNAL OF SCHOOL LEADERSHIP, 2016-04-13 JSL invites the submission of manuscripts that contribute to the exchange of ideas and scholarship about schools and leadership. All theoretical and methodological approaches are welcome. We do not advocate or practice a bias toward any mode of inquiry e.g. qualitative vs quantitative, empirical vs conceptual, discipline based vs interdisciplinary and instead operate from the assumption that all careful and methodologically sound research has the potential to contribute to our understanding of school leadership. We strongly encourage authors to consider both the local and global implications of their work. The journal's goal is to clearly communicate with a diverse audience including both school based and university based educators. The journal embraces a broad conception of school leadership and welcomes manuscripts that reflect the diversity of ways in which this term is understood. The journal is interested not only in manuscripts that focus on administrative leadership in schools and school districts but also in manuscripts that inquire about teacher, student, parent and community leadership. Serials Holdings Linda Hall Library, 1989 **Being Modern** Robert Bud, Paul Greenhalgh, Frank James, Morag Shiach, 2018-10-05 In the early decades of the twentieth century engagement with science was commonly used as an emblem of modernity. This phenomenon is now attracting increasing attention in different historical specialties. *Being Modern* builds on this recent scholarly interest to explore engagement with science across culture from the end of the nineteenth century to

approximately 1940 Addressing the breadth of cultural forms in Britain and the western world from the architecture of Le Corbusier to working class British science fiction *Being Modern* paints a rich picture Seventeen distinguished contributors from a range of fields including the cultural study of science and technology art and architecture English culture and literature examine the issues involved The book will be a valuable resource for students and a spur to scholars to further examination of culture as an interconnected web of which science is a critical part and to supersede such tired formulations as Science and culture *Current Index to Journals in Education* ,1991 **Nuclear Science Abstracts** ,1963

International Summitry and Global Governance Emmanuel Murlon-Druol,Federico Romero,2014-03-05 This volume is the first detailed study of the emergence of regular and frequent heads of government meetings summits covering the period from the mid 1970s to the early 1990s Summit meetings of heads of government have become banal in today s world Yet they are a relatively recent practice that took off only in the mid 1970s The aim of the book is to explore the origins of this new feature of global governance in its historical context Why did heads of Western governments decide to regularly meet up in the European Council and the G7 What were they aiming at How were these meetings run and what consequences did they have How did other actors of international relations states as well as non state and or transnational actors react to this transformation Based on newly released archival material International Summitry and Global Governance investigates the rise of regular international summitry and its impact on international relations The volume brings together the best specialists of this new field of historical enquiry in order to explore those features of global governance in their historical context and open up an interdisciplinary dialogue with social scientists who have studied summits from their own disciplinary perspectives This book will be of much interest to students of international history Cold War studies global governance foreign policy and IR in general Resources in education ,1983-09
