not just about my experiences but of other sea going sailors as well Some of the stories are hilarious and I believe all are interesting The book is divided into three elements The heart of the book is the Sea Tales but Mr Richard Killblane the Army Transportation Corps historian graciously provided me with many fascinating interviews of army mariners conducted by personnel in his office The histories of many army watercraft companies are the final elements of the book and provides the reader with the differences of watercraft units and their missions I have found my own experience to be very interesting and rewarding I recall one day working on the engine room logbook sitting at the galley table and glancing out of the door at the water in Skiffs Creek and thinking of how fortunate I was to be sitting there and not working in an office I have had a wide variety of duties in my twenty two year career but nothing compares with working on the water I can relate to what Samuel Clemmons wrote in his book *Life on the Mississippi* For I loved the profession far better than any I have followed since I feel that says it all I am now retired but I have the memories of my experiences
