Amber Case, Aaron Day

Percussion Only Edition An Impact Soundworks Sample:

Electroacoustic Music in East Asia Marc Battier, Kenneth Fields, 2020-06-09 This book illuminates the development of electronic and computer music in East Asia presented by authors from these countries and territories China Japan Korea and Taiwan The scholars bring forward the cultural complexities and conflicts involved in their diverse encounters with new music technology and modern aesthetics How electronic music attracted the interest of composers from East Asia is quite varied while composers and artists in Japan delved into new sounds and music techniques and fostered electronic music quite early on political sociological and artistic conditions pre empted the adoption of electronic music techniques in China until the last two decades of the twentieth century Korean and Taiwanese perspectives contribute to this rare opportunity to re examine under a radically different set of cultural preconditions the sweeping musical transformation that similarly consumed the West Special light is shed on prominent composers such as Sukhi Kang Toshio Mayuzumi Toru Takemitsu and Xiaofu Zhang Recent trends and new directions which are observed in these countries are also addressed and the volume shows how the modern fusion of music and technology is triangulated by a depth of culture and other social forces This book was originally published as a special issue of Contemporary Music Review

Designing with Sound Amber Case, Aaron Day, 2018-11-26 Sound can profoundly impact how people interact with your product Well designed sounds can be exceptionally effective in conveying subtle distinctions emotion urgency and information without adding visual clutter In this practical guide Amber Case and Aaron Day explain why sound design is critical to the success of products environments and experiences Just as visual designers have a set of benchmarks and a design language to guide their work this book provides a toolkit for the auditory experience improving collaboration for a wide variety of stakeholders from product developers to composers user experience designers to architects You ll learn a complete process for designing prototyping and testing sound In two parts this guide includes Past present and upcoming advances in sound design Principles for designing quieter products Guidelines for intelligently adding and removing sound in interactions When to use voice interfaces how to consider personalities and how to build a knowledge map of queries Working with brands to create unique and effective audio logos that will speak to your customers Adding information using sonification and generative audio

No Wave Marc Masters, 2007 Flashing through New York in the late 1970s No Wave was the ultimate anti movement Its bands consisted of untrained artists looking to explode rock and disappear before the smoke cleared The primary perpetrators all drew on primitivism performance art and the avant garde But they were best known for short songs and even shorter life spans No Wave traces the history of this unique movement from early pioneers like Suicide to Richard Hell to hidden treasures like Red Transistor and 8 Eyed Spy to descendents like ESG and Sonic Youth No Wave is a comprehensive guide to a movement whose influence still resonates today
