## **Perfect Bound Book Binding:**

Making Books Tony Firman, 2011      *Managing a Library Binding Program* Association of Research Libraries, 1993

Library binding is one of the activities typically included in newly created preservation departments but librarians continue to discover that transforming a traditional binding program into one that better meets preservation objectives requires considerable investment of time. This resource guide is intended to help libraries review their binding activities from a preservation perspective through the following:

- 1 suggesting a strategy for gaining expertise through reading and observation
- 2 outlining a plan for evaluating the library's and the binder's practices and policies
- 3 presenting a strategy for initiating change
- 4 identifying issues that merit attention and discussion

Thirty-six articles dealing with a binding program and relations with a binder are presented. A bibliography lists an additional 18 sources for further reading.
