Astronomy and Astrophysics Abstracts aims to present a comprehensive documentation of the literature concerning all aspects of astronomy, astrophysics, and their border fields. It is devoted to the recording, summarizing, and indexing of the relevant publications throughout the world. **Astronomy and Astrophysics Abstracts** is prepared by a special department of the **Astronomisches Rechen Institut** under the auspices of the **International Astronomical Union**. Volume 43 records literature published in 1987 and received before August 15, 1987. Some older documents, which we received late and which are not surveyed in earlier volumes, are included too. We acknowledge with thanks contributions of our colleagues all over the world. We also express our gratitude to all organizations, observatories, and publishers which provide us with complimentary copies of their publications. Starting with Volume 33, all the recording, correction, and data processing work was done by means of computers. The recording was done by our technical staff members: Ms Helga Ballmann, Ms Beate Gobel, Ms Monika Kohl, Ms Sylvia Matyssek, Ms Doris Schmitz, Braunstein, Ms Utta Barbara Stegemann, Mr Jochen Heidt, and Mr Kristopher Polzine supported our task by careful proof reading. It is a pleasure to thank them all for their encouragement.
