Physical Science Paper Grade 12 2012:

School Science Practical Work in Africa Umesh Ramnarain, 2020-06-01 School Science Practical Work in Africa presents the scope of research and practice of science practical work in African schools. It brings together prominent science educators and researchers from Africa to share their experience and findings on pedagogical innovations and research informed practices on school science practical work. The book highlights trends and patterns in the enactment and role of practical work across African countries. Practical work is regarded as intrinsic to science teaching and learning and the form of practical work that is strongly advocated is inquiry based learning which signals a definite paradigm shift from the traditional teacher dominated to a learner centered approach. The book provides empirical research on approaches to practical work, contextual factors in the enactment of practical work and professional development in teaching practical work. This book will be of great interest to academics, researchers and post graduate students in the fields of science education and educational policy.

Students' Motivations and Emotions in Chinese Science Classrooms Xiaoyang Gong, 2023-12-05 The book reviews and examines students' motivations and emotions in Chinese science classrooms. By adopting different approaches such as content analysis, factor analysis, path analysis and latent profile analysis, the author analyzes the content of literature, curriculum standards and textbooks, classroom observations, survey data, interview data and open ended responses from students and teachers through a literature review and six empirical studies. The findings may provide insights for education researchers and practitioners seeking to improve science teachers' pedagogical practices and create friendlier classroom environments. Researchers of science education or those who are interested in investigating students' affective perceptions in specific subject contexts will find this book interesting.

Handbook of Research on Science Learning Progressions Hui Jin, Duanli Yan, Joseph Krajcik, 2024-07-30 Gathering contributions from leading scholars around the world, this handbook offers a comprehensive resource on the most recent advances in research surrounding the theories, methodologies and applications of science learning progressions. Researchers and educators have used learning progressions to guide the design and alignment of curriculum, instruction and assessment and to help students learn scientific knowledge and practices in a coherent and connected way across multiple years. This handbook lays out the development and current state of research in this field across four sections: learning progression theories and methodologies; learning progressions to promote student learning; teachers' learning and use of learning progressions; and new technology in learning progression research. Featuring internationally recognized experts in learning progression research as well as up and coming voices, the Handbook of Research on Science Learning Progressions offers a defining new resource for researchers, teachers and teacher educators and curriculum and assessment developers in science education.
