Kay-Bujak,2023-12-30 Fresh new look at the life of Cicero Rome s greatest orator and one of the key figures of the 1st century Cicero was Rome s greatest orator and one of the key statesmen of the late Roman Republic He championed traditional Republican values against populist demagogues like Julius Caesar during a tumultuous period of civil war and unrest During his term as consul 63 BCE his decisive actions thwarted a plot to overthrow the Senate controversially having the ringleaders executed He outlived Caesar but then mounted a virulent opposition to Mark Antony which led to Cicero s proscription and execution as an enemy of the state The legacy of his speeches letters and treatises on politics law oratory and other subjects endured however and was massively influential on Latin literature and when rediscovered in the Middle Ages formed one of the cornerstones of the Renaissance The period in which Cicero flourished and died was one in which democracy was under attack from radical demagoguery and Philip Kay Bujak believes his career holds important parallels and lessons for our own times Written in a clear and accessible style this fresh look at Cicero s life demonstrates his relevance to a modern audience *New York Magazine* ,1985-06-17 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **The Publishers' Trade List Annual** ,1979 The Art of Classic Planning Nir Haim Buras,2020-01-28 An accomplished architect and urbanist goes back to the roots of what makes cities attractive and livable demonstrating how we can restore function and beauty to our urban spaces for the long term Nearly everything we treasure in the world s most beautiful cities was built over a century ago Cities like Prague Paris and Lisbon draw millions of visitors from around the world because of their exquisite architecture walkable neighborhoods and human scale Yet a great deal of the knowledge and practice behind successful city planning has been abandoned over the last hundred years not because of traffic population growth or other practical hurdles but because of ill considered theories emerging from Modernism and reactions to it The errors of urban design over the last century are too great not to question The solutions being offered today sustainability walkability smart and green technologies hint at what has been lost and what

may be regained but they remain piecemeal and superficial In The Art of Classic Planning architect and planner Nir Haim Buras documents and extends the time tested and holistic practices that held sway before the reign of Modernism With hundreds of full color illustrations and photographs that will captivate architects planners administrators and developers The Art of Classic Planning restores and revitalizes the foundations of urban planning Inspired by venerable cities like Kyoto Vienna and Venice and by the great successes of L'Enfant's Washington Haussmann's Paris and Burnham's Chicago Buras combines theory and a host of examples to arrive at clear guidelines for best practices in classic planning for today's world The Art of Classic Planning celebrates the enduring principles of urban design and invites us to return to building beautiful cities
