

Self-Introduction Scholarship Essay

My name is Abigail Lopez. I am a student at Southeastern College completing an associate's degree in science and planning on transferring to a four-year college or university. My educational aspirations consist of acquiring a bachelor's degree in any biological or health science that would assist me in pursuing a medical career as a doctor. On the other hand, my career vision is to one day be able to provide affordable health care to marginalized communities in the United States. However, I am certain that if I do not complete my college degree I could never have the opportunity to achieve my career goals. I decided that I will attain a career as a doctor since my passion has always been assisting others and trying to improve their quality of life. Therefore, I think that pursuing such a career will provide me the opportunity to help improve the community's health quality conditions and learn about their medical needs. After becoming a certified doctor, I want to specialize in oncology, the study of cancer, and add my knowledge to the cancer research field.

Furthermore, I want to contribute back to undeserved populations in the U.S. that struggle every day to sustain a family, and who do not have as much access to medical assistance as other privileged groups. The first health project I want to accomplish throughout my career as a doctor is to establish a free clinic where affordable medical assistance can be provided regardless of the patient's immigration status. The diverse health services would include free doctor consultations, low-price or free medication, and nutritional classes to prevent the presence of diabetes or heart disease. I also intend to provide an interpreter for patients in case they do not speak English and establish a financial assistance program to help patients who are not able to pay for any type of surgery that needs to be performed. The second biggest career goal that I want to accomplish is to establish a non-profit organization where I can create internships for medical school students around the U.S., and allow them to travel to isolated communities around the world to provide free medical services. I also want to provide nutrition education to support these marginalized communities, especially indigenous groups from Latin American countries. This will help contribute to the physical development of kids and offer a solution to malnutrition. I know that all of my goals will remain dreams if I do not complete my medical degree. Therefore, I am committed to working hard in school and looking for opportunities that could help me make my goals a reality.

The American Indian and Alaska Native Student's Guide to College Success D. Michael Pavel, Ella Inglebret, 2007-05-30. Choosing the right college is a big decision for most people. American Indian and Alaska Natives are no exception, but finding a college that offers a good educational program in their major plus a strong support system for tribal traditions makes that decision even more complex. This volume will help Native people clarify their postsecondary aspirations, improve their college choice, and increase their success in college. After a thorough examination of the issues that should be considered, Pavel and Inglebret present the different types of colleges, available programs and services to meet the special needs of Native students, and financial aid options. By answering many of the basic questions students have about going to college, Pavel and Inglebret help to demystify the process and encourage more Native students to pursue a college education. Special features include a list of colleges with Native American studies and those most friendly to Native Americans' needs; a list of sources for financial aid with contact information; interviews with Native American students on all aspects of their college experiences; suggestions for students on how to balance their new college experiences with their community and heritage.
