

Science and Technology sample unit: Paddock to plate

Early Stage 1/Stage 1 (K-2 composite class)

Duration: 10 weeks (1.5 hours per week)

Unit content

Living things need food to stay alive and healthy. Where do we know about where our food comes from and how it gets to us from farms and factories?

Target outcomes

Early Stage 1: A student:

- ST1-05A develops informed attitudes about the current and future use and influence of science and technology-based innovation
- ST1-05B explores their immediate surroundings by questioning, observing, using their senses and communicating to share their observations and ideas
- ST1-05C uses a simple design process to produce solutions with identified purposes
- ST1-05D identifies the basic needs of living things
- ST1-05E identifies that objects are made of materials that have observable properties
- ST1-05F recognises how familiar products, places and spaces are made to suit their purpose

Stage 1:

- ST1-05A develops informed attitudes about the current and future use and influence of science and technology based innovation
- ST1-05B investigates questions and predictions by collecting and recording data, sharing and reflecting on their experiences and comparing what they and others know
- ST1-05C uses a structured design process, everyday tools, materials, equipment and techniques to produce solutions that respond to identified needs and wants
- ST1-05D describes ways that different places in the environment provide for the needs of living things
- ST1-05E relates the properties of common materials to their use for particular purposes
- ST1-05F describes a range of manufactured products in the local environment and how their different purposes influence their design

Unit overview

In this unit, students are introduced to and begin to practice the science skills of observing, questioning, predicting and communicating. Students observe a range of farm animals and farm produce, and explore ways farm produce is packaged before being moved from the farm to places where the food is sold or made into other products for sale. They represent their ideas in a model that illustrates the path of one everyday food, eg milk, to show the journey of one production paddock to plate and explore some criteria for packaging a dairy product. Students participate in activities to view some past and present methods of processing some foods and carry out simple investigations about the properties of materials used to package food. In this unit, students will be in contact with foods.

Teachers should be aware that students may have food and other allergies that can result in serious medical consequences. This is an important consideration in collecting foods to be handled and potentially consumed.
