conference aims to promote interdisciplinary research and enhance educational practices. Ultimately the goal is to inspire actionable insights and foster sustainable solutions that contribute to societal well being and global progress. This year's conference distinguishes itself from previous editions by emphasizing a set of unique and timely research themes designed to address the evolving landscapes of humanities and social sciences. One of the primary themes is Digital Humanities and Society which explores how digital technologies are transforming historical research, cultural preservation and educational methodologies. Another significant theme is Social Justice and Equity focusing on contemporary challenges related to race, gender, class and access to education and fostering discussions on policies and practices that aim to create a more just society. Globalization and Cultural Identity is another key theme examining the effects of global interconnectedness on local cultures and identities and how these dynamics shape both individual and collective experiences in diverse societies. Additionally, Sustainability and Ethics invites scholars to delve into the ethical dimensions of environmental sustainability, social responsibility and the role of humanities and social sciences in promoting sustainable development. Furthermore, this year's conference introduces a theme on Interdisciplinary Approaches to Crisis Management addressing the critical need for humanities and social sciences perspectives in understanding and managing global crises such as pandemics, economic instability and political upheavals. By focusing on these distinct research themes, the conference aims to not only advance academic discourse but also inspire concrete actions that address the multifaceted challenges of our time.

A Textbook of Electrical Technology BL Theraja, 2014-07 For Mechanical Engineering Students of Indian Universities. It is also available in 4 Individual Parts. *A Textbook of Electrical Technology - Volume I (Basic Electrical Engineering)* BL Theraja, 2005. The primary objective of vol I of A Text Book of Electrical Technology is to provide a comprehensive treatment of topics in Basic Electrical Engineering both for electrical as well as nonelectrical students pursuing their studies in civil, mechanical, mining, textile, chemical, industrial, environmental, aerospace, electronic and computer engineering both at the Degree and diploma level. Based on the suggestions received from our esteemed readers both from India and abroad, the scope of the book has been enlarged according to their requirements. Almost half the solved examples have been deleted and replaced by latest examination papers set up to 1994 in different engineering colleges and technical institutions in India and abroad.
