Capability Surprise for U.S. Naval Forces Committee on Capability Surprise for U.S. Naval Forces, Naval Studies Board, Division on Engineering and Physical Sciences, National Research Council, 2013-12-31 A letter dated December 21 2011 to National Academy of Sciences President Dr Ralph Cicerone from the Chief of Naval Operations ADM Jonathan W Greenert U S Navy requested that the National Research Council's NRC's Naval Studies Board NSB conduct a study to examine the issues surrounding capability surprise both operationally and technically related facing the U S naval services Accordingly in February 2012 the NRC under the auspices of its NSB established the Committee on Capability Surprise for U S Naval Forces The study's terms of reference provided in Enclosure A of this interim report were formulated by the Office of the Chief of Naval Operations CNO in consultation with the NSB chair and director The terms of reference charge the committee to produce two reports over a 15 month period The present report is the first of these an interim report issued as requested following the third full committee meeting The terms of reference direct that the committee in its two reports do the following 1 Select a few potential capability surprises across the continuum from disruptive technologies to intelligence

inferred capability developments through operational deployments and assess what U S Naval Forces are doing and could do about these surprises while mindful of future budgetary declines 2 Review and assess the adequacy of current U S Naval Forces policies strategies and operational and technical approaches for addressing these and other surprises and 3 Recommend any changes including budgetary and organizational changes as well as identify any barriers and or leadership issues that must be addressed for responding to or anticipating such surprises including developing some of our own surprises to mitigate against unanticipated surprises Capability Surprise for U S Naval Forces Initial Observations and Insights Interim Report highlights issues brought to the committee s attention during its first three meetings and provides initial observations and insights in response to each of the three tasks above It is very much an interim report that neither addresses in its entirety any one element of the terms of reference nor reaches final conclusions on any aspect of capability surprise for naval forces The committee will continue its study during the coming months and expects to complete by early summer 2013 its final report which will address all of the elements in the study s terms of reference and explore many potential issues of capability surprise for U S naval forces not covered in this interim report **Logical Empiricism and the Physical Sciences** Sebastian Lutz,Adam Tamas Tuboly,2021-04-26

This volume has two primary aims to trace the traditions and changes in methods concepts and ideas that brought forth the logical empiricists philosophy of physics and to present and analyze the logical empiricists various and occasionally contrary ideas about the physical sciences and their philosophical relevance These original chapters discuss these developments in their original contexts and social and institutional environments thus showing the various fruitful conceptions and philosophies behind the history of 20th century philosophy of science Logical Empiricism and the Natural Sciences is divided into three thematic sections Part I surveys the influences on logical empiricism s philosophy of science and physics It features chapters on Maxwell s role in the worldview of logical empiricism on Reichenbach s account of objectivity on the impact of Poincaré on Neurath s early views on scientific method Frank s exchanges with Einstein about philosophy of physics and on the forgotten role of Kurt Grelling Part II focuses on specific physical theories including Carnap s and Reichenbach s positions on Einstein s theory of general relativity Reichenbach s critique of unified field theory and the logical empiricists reactions to quantum mechanics The third and final group of chapters widens the scope to philosophy of science and physics in general It includes contributions on von Mises frequentism Frank s account of concept formation and confirmation and the interrelations between Nagel s Feigl s and Hempel s versions of logical empiricism This book offers a comprehensive account of the logical empiricists philosophy of physics It is a valuable resource for researchers interested in the history and philosophy of science philosophy of physics and the history of analytic philosophy Inclusive Texts in Elementary Classrooms Amy J. Heineke,Aimee Papola-Ellis,2022

Learn how to put children s diverse and storied experiences at the center of the curriculum Schools are more diverse than ever before but the texts and materials that typify classroom curricula continue to prioritize so called mainstream stories and

perspectives These canonical texts often exclude the nuanced identities and rich lived experiences of the very children sitting in today s classrooms But kids thrive when they see themselves in texts and learn about the world around them by connecting with the experiences of others Based on the authors work with elementary school teachers over the last decade this resource offers strategies for moving away from canonical texts The authors present a four part framework for selecting using and engaging students with texts that promote children s identity development literacy engagement and comprehension and learning across the content areas The practical text provides guidance for setting learning goals that align with relevant standards and curricular directives as well as classrooms examples teaching strategies and reflective questions Book Features An actionable way for teachers to move from theory to practice using what we know about culturally relevant practice and critical literacy to create instruction that enhances children s classroom experiences and learning An inclusive and intersectional approach that supports all teachers in enhancing their classroom libraries and curricular resources for the benefit of all students Specific ideas for texts and authors as well as more generalizable themes and ideas that will guide future exploration and use of texts in classrooms Tangible strategies and rich classrooms examples from 20 expert teachers spanning diverse elementary school settings Reflective questions to help practitioners personalize the content to their own contexts Commerce, Justice, Science, and Related Agencies Appropriations for 2014 United States. Science Education in Canada Christine D. Tippet, Todd M. Milford, 2019-07-01 This book offers a meso level description of demographics science education and science teacher education Representing all 13 Canadian jurisdictions the book provides local insights that serve as the basis for exploring the Canadian system as a whole and function as a common starting point from which to identify causal relationships that may be associated with Canada's successes The book highlights commonalities consistencies and distinctions across the provinces and territories in a thematic analysis of the 13 jurisdiction specific chapters Although the analysis indicates a network of policy and practice issues warranting further consideration the diverse nature of Canadian science education makes simple identification of causal relationships elusive Canada has a reputation for strong science achievement However there is currently limited literature on science education in Canada at the general level or in specific areas such as Canadian science curriculum or science teacher education This book fills that gap by presenting a thorough description of science education at the provincial territorial level as well as a more holistic description of pressing issues for Canadian science education

Physics of the Human Temporality Ihor Lubashevsky, Natalie Plavinska, 2021-10-21 This book presents a novel account of the human temporal dimension called the human temporality and develops a special mathematical formalism for describing such an object as the human mind One of the characteristic features of the human mind is its temporal extent For objects of physical reality only the present exists which may be conceived as a point like moment in time In the human temporality the past retained in the memory the imaginary future and the present coexist and are closely intertwined and impact one another This book focuses on one of the

fragments of the human temporality called the complex present A detailed analysis of the classical and modern concepts has enabled the authors to put forward the idea of the multi component structure of the present For the concept of the complex present the authors proposed a novel account that involves a qualitative description and a special mathematical formalism This formalism takes into account human goal oriented behavior and uncertainty in human perception The present book can be interesting for theoreticians physicists dealing with modeling systems where the human factor plays a crucial role philosophers who are interested in applying philosophical concepts to constructing mathematical models and psychologists whose research is related to modeling mental processes *Explaining Russian-German code-mixing* Nikolay

Hakimov,2021-10-26 The study of grammatical variation in language mixing has been at the core of research into bilingual language practices Although various motivations have been proposed in the literature to account for possible mixing patterns some of them are either controversial or remain untested Little is still known about whether and how frequency of use of linguistic elements can contribute to the patterning of bilingual talk This book is the first to systematically explore the factor usage frequency in a corpus of bilingual speech The two aims are i to describe and analyze the variation in mixing patterns in the speech of Russia German adolescents and young adults in Germany and ii to propose and test usage based explanations of variation in mixing patterns in three morphosyntactic contexts the adjective modified noun phrase the prepositional phrase and the plural marking of German noun insertions in bilingual sentences In these contexts German noun insertions combine with either Russian or German words and grammatical markers thus yielding mixed bilingual and German monolingual constituents in otherwise Russian sentences the latter also labelled as embedded language islands The results suggest that the frequency with which words are used together mediates the distribution of mixing patterns in each of the examined contexts The differing impacts of co occurrence frequency are attributed to the distributional and semantic specifics of the analyzed morphosyntactic configurations Lexical frequency has been found to be another important determinant in this variation Other factors include recency or lexical priming in discourse in the case of prepositional phrases and phonological and structural similarities and differences in the inflectional systems of the contact languages in the case of plural marking
