Barría, 2024-06-19 The field of neonatal care has been a long standing concern within the broader field of child health given the crucial role the neonatal stage plays in the development of individuals While many of the most effective practices in neonatal care have been widely disseminated across maternal and childcare units globally cultural and social differences as well as the availability of resources necessitate the adaptation of these practices to the specific contexts of each place This book discusses a range of crucial topics related to neonatal care over two sections It includes ten chapters that address pertinent issues in neonatal care The book's objective is to contribute to the clinical work of health teams in neonatal units by sharing content and lessons for efficient and safe care both from the global context of the configuration of the therapeutic environment to specific topics of usual care The chapters have been developed by specialists in neonatology from different countries and through them they hope to share part of their experience **Advances in Pediatrics** Anupam Sachdeva, AK

Dutta, 2012-08-31 **Essential Human Virology** Jennifer Louten, 2022-05-28 Essential Human Virology Second Edition focuses on the structure and classification of viruses virus transmission and virus replication strategies based upon type of viral nucleic acid Several chapters focus on notable and recognizable viruses and the diseases caused by them including influenza HIV hepatitis viruses poliovirus herpesviruses and emerging and dangerous viruses Additionally how viruses cause disease pathogenesis is highlighted along with discussions on immune response to viruses vaccines anti viral drugs gene therapy the beneficial uses of viruses research laboratory assays and viral diagnosis assays Fully revised and updated with new chapters on coronaviruses nonliving infectious agents and notable non human viruses the book provides students with a solid foundation in virology Focuses on human diseases and the cellular pathology that viruses cause Highlights current and cutting edge technology and associated issues Presents real case studies and current news highlights in each chapter Features dynamic illustrations chapter assessment questions key terms and a summary of concepts as well as an instructor website with lecture slides a test bank and recommended activities Updated and revised with new chapters on coronaviruses nonliving infectious agents and notable non human viruses **CAPD/CCPD in Children** Richard N. Fine, Steven R.

Alexander, Bradley A. Warady, 2012-12-06 During the past quarter century there has been a renaissance of interest in the use of peritoneal dialysis as the primary dialytic modality for the treatment of children with end stage renal disease ESRD The development of continuous ambulatory peritoneal dialysis APD has facilitated the provision of prolonged dialysis to infants children and adolescents and has provided pediatric nephrologists worldwide with a real opportunity to administer effective dialysis therapy to all patients afflicted with ESRD It has been more than a decade since the initial publication of CAPD CCPD

in Children In the interim a great deal of clinical experience with patients receiving peritoneal dialysis has been accumulated and research efforts have substantially increased our understanding of the technique Therefore we felt that a second edition of CAPD CCPD in Children was propitious to update the advances of the past decade
