The Political Legacy of Colonialism in Zimbabwe Everisto Benyera,2024-11-18 This book investigates the political legacy of colonialism in contemporary African institutions Using the case study of electoral and justice institutions in post colonial Zimbabwe the book explores how those in post colonial states relate to and with institutions initially designed to oppress them and remain structurally and systematically colonial The book argues that the colonial era colonised the land knowledge and minds of Africans resulting in injustice and epistemicides The book demonstrates how the critical institutions of elections and justice have been rendered anti black and toxic The book calls for Africa to invest in epistemic independence unencumbered by Western political modernity and then deploy that independence to build reconstituted institutions structures and systems that serve the interests of Africans This book will be an important read for African policymakers and researchers working on African politics governance and international relations **Farmers, Kings, and Traders** Martin

Hall,1990-10-15 In this overview of the origins and development of black societies in southern Africa Martin Hall reconstructs the region s past by thoroughly examining both the archaeological and the historical records Beginning with the gradual southward movement of the earliest farmers nearly two thousand years ago Hall tracks the emergence of precolonial states such as Mapungubwe and Great Zimbabwe Farmers Kings and Traders concludes with the devastating effects of colonialism Through a close reading of the accounts of early travelers colonialists archaeologists and historians Hall places in context the often contradictory histories that have been written of this region The result is an illuminating look at how ideas about the past have themselves changed over time **Port Cities and Intruders** Michael N. Pearson,2002-10-14 Selected by Choice Magazine as an Outstanding Academic Title In Port Cities and Intruders historian Michael Pearson explores the

role of port cities and their orientation relations between the coast and the interior the place of the coast in the world economy and the impact of the Portuguese in the early modern period **Archives, Objects, Places and Landscapes** Manyanga, Munyaradzi,Chirikure, Shadreck,2017-04-11 Dissatisfaction has matured in Africa and elsewhere around the fact that often the dominant frameworks for interpreting the continent s past are not rooted on the continent s value system and philosophy This creates knowledge that does not make sense especially to local communities The big question therefore is can Africans develop theories that can contribute towards the interpretation of the African past using their own experiences Framed within a concept revision substrate the collection of papers in this thought provoking volume argues for concept

revision as a step towards decolonizing knowledge in the post colony The various papers powerfully expose that cleansed knowledge is not only locally relevant it is also locally accessible and globally understandable

Water and Society from Ancient Times to the Present Federica Sulas, Innocent Pikirayi, 2018-10-03 As water availability management and conservation become global challenges there is now wide consensus that historical knowledge can provide crucial information to address present crises offering unique opportunities to appreciate the solutions and mechanisms societies have developed over time to deal with water in all its forms from rainfall to groundwater This unique collection explores how ancient water systems relate to present ideas of resilience and sustainability and can inform future strategy Through an investigation of historic water management systems along with the responses to and impact of various water driven catastrophes contributors to this volume present tenable solutions for the long term use of water resources in different parts of the world The discussion is not limited to issues of the past seeking instead to address the resonance and legacy of water histories in the present and future *Water and Society from Ancient Times to the Present* speaks to an archaeological and non archaeological scholarly audience and will be a useful primary reference text for researchers and graduate students from a variety of disciplinary backgrounds including archaeology anthropology history ecology geography geology architecture and development studies
