Keeping the Republic: Power and Citizenship in American Politics, 5th Brief Edition Christine Barbour, Gerald C. Wright, 2012-12-20 A consistent and compelling narrative is crucial to student engagement with any book. But sadly, so many brief editions are mere cut and paste versions of their comprehensive selves. Not the case with Keeping the Republic's brief edition. Carefully condensed by Barbour and Wright, this text gives your students all the continuity and crucial content of the full version, just in a more concise, value-oriented package. And now your students benefit from a new full-color interior design. Photos jump off the page, and colorful charts, tables, and maps enhance students' data literacy. Repeatedly praised for engaging students to think critically about who gets what and how in American politics, Barbour and Wright show them how institutions and rules determine who wins and who loses in the political arena. The authors carefully craft each graphic, boxed feature, and vignette to develop students' analytic capabilities. By introducing them to the seminal work in the field and showing them how to employ the themes of power and citizenship, this proven text builds confidence in students who want to take an active part in their communities and government so they play their part in keeping the republic. Ukrainian Politics: Power, Politics, and Institutional Design Paul D'Anieri, 2015-01-28 Ukraine made headlines around the world during the winter of 2004-05 as the colorful banners of the Orange Revolution unfurled against the snowy backdrop of Kyiv signaling the bright promise of democratic rebirth But is that what is really happening in Ukraine In the early post Soviet period Ukraine appeared to be firmly on the path to democracy The peaceful transfer of power from Leonid Kravchuk to Leonid Kuchma in the election of 1994 followed by the adoption of a western style democratic constitution in 1996 seemed to complete the picture But the Kuchma presidency was soon clouded by dark rumors of corruption and even political murder and by 2004 the country was in full blown political crisis A three stage presidential contest was ultimately won by Viktor Yushchenko who took office in 2005 and appointed Yulia Tymoshenko as premier but the turmoil was far from over The new government quickly faltered and splintered This introduction to Ukrainian politics looks beyond these dramatic events and compelling personalities to identify the actual play of power in Ukraine and the operation of its political system The author seeks to explain how it is that after each new beginning power politics has trumped democratic institution building in Ukraine as in so many other post Soviet states What is really at work here and how can Ukraine break the cycle of hope and disillusionment

marketing and entrepreneurship **Iron and Steel and Their Products** Canada. Dominion Bureau of Statistics. Mining, Metallurgical and Chemical Branch, 1925 **Beyond the Boundaries** Georgia A. Persons, 2017-09-29 In the past African American aspirations for political office were assumed to be limited to areas with sizeable black population bases By and large black candidates have rarely been successful in statewide or national elections This has been attributed to several factors limited resources available to African American candidates or identification with a black liberationist ideological thrust Other factors have been a relatively small and spatially concentrated primary support base of black voters and the persistent resistance of many white voters to support black candidates For these reasons the possibility of black candidates winning elections to national office was presumably just a dream Conventional wisdom conceded a virtual cap on both the possible number of black elected officials and the level of elective office to which they could ascend But objective political analysis has not always made sufficient allowances for the more universal phenomenon of individual political ambitions The contributors to this volume explore the ways ambitious individuals identified and seized upon strategies that are expanding the boundaries of African American electoral politics This volume is anchored by a symposium that focuses on new possibilities in African American politics Both the electoral contests of 2006 and the Barack Obama presidential campaign represent an emergent dynamic in American electoral politics Analysts are beginning to agree that the contours of social change now make the electoral successes of black candidates who are perceived as ideologically and culturally mainstream increasingly likely The debate captured in this volume will likely inspire further scholarly inquiry into the changing nature and dimensions of the larger dynamic of race in American politics and the subsequent changing political fortunes of African American candidates **Politics USA** Robert J. The Psychology of People, Power and Politics Ron Roberts,2023-05-26 From events in our everyday life to those which stride the international stage we have come to view the world in increasingly psychological terms In spite of this beyond the wants desires and motivations of the characters who form the centrepiece of these explanatory dramas the discipline which constitutes the driving force behind the analyses has been largely overlooked In a series of essays covering issues from mental health to political governance and war this book reflects on the nature of psychology as an intellectual endeavour questions its relationship to the systems of power which shape our lives and strays from the beaten track to offer new perspectives and voices

Power Sharing in a Divided Nation Johan Saravanamuttu,2016-09-30 This book argues that Malaysia s electoral politics have historically been premised on a hybridized model of communalism and consociationalism Beyond this it posits a newer idea of power sharing based on the dynamic and transformative practice of mediated communalism through six decades 1952 2016 of electoral politics The strategy of mediating communalism is critically explored throughout the book serving to test its saliency as a distinct approach to power sharing in a social formation which is ethnically religiously and regionally divided yet has remained remarkably and tenuously integrated throughout Malaysia s electoral history The book delves into this question by narrating and theorizing the complexity of communal politics leading to the emergence of new politics which have attempted to put Malaysia on the track of further democratization It is further implied that new politics has to work in tandem with mediated communalism to transcend the most deleterious effects of an ethnically divided society
