Lesser, 1985 **Size Analysis of Sand Samples from Southern New Jersey Beaches** Michael D. Ramsey, Cyril Jerome Galvin, 1977 The size of sand on Atlantic coast beaches of southern New Jersey was studied by analyzing 788 sand samples In north to south order the samples were collected by Island Beach Long Beach Island Brigantine Atlantic City and Ludlam Island Sand size generally decreased from north to south with size at the two northernmost sites noticeably coarser on the average than the size at the three southern sites Results from Long Beach Island Atlantic City and Ludlam Island where most of the data were collected indicate that size averaged by beach decreases from 0 33 millimeter at Long Beach Island in the north through 0 27 millimeter at Atlantic City to 0 23 millimeter at Ludlam Island in the south Size averaged by profile line varies from 0 34 millimeter at a profile on the northern half of Long Beach Island 0 20 millimeter at a profile in the

middle of Ludlam Island Size also varies with position across the profile from low tide terrace to landward edge of berm tending to decrease landward across the average of three profiles on Atlantic City and three profiles on Ludlam Island but tending to increase landward across the average of four profile lines on Long Beach Island Maximum variation at one Beach averaged by position on profile occurs at Long Beach Island where the average size increased from 0.28 millimeter on the low tide terrace to 0.36 millimeter on the berm Size variation by month suggests a tendency for sand to be finer during late summer and early fall but data do not permit identification of a consistent annual cycle

When Children Die Institute of Medicine, Board on Health Sciences Policy, Committee on Palliative and End-of-Life Care for Children and Their Families, 2003-01-09 The death of a child is a special sorrow No matter the circumstances a child's death is a life altering experience Except for the child who dies suddenly and without forewarning physicians nurses and other medical personnel usually play a central role in the lives of children who die and their families At best these professionals will exemplify medicine with a heart At worst families encounters with the health care system will leave them with enduring painful memories anger and regrets When Children Die examines what we know about the needs of these children and their families the extent to which such needs are and are not being met and what can be done to provide more competent compassionate and consistent care The book offers recommendations for involving child patients in treatment decisions communicating with parents strengthening the organization and delivery of services developing support programs for bereaved families improving public and private insurance training health professionals and more It argues that taking these steps will improve the care of children who survive as well as those who do not and will likewise help all families who suffer with their seriously ill or injured child Featuring illustrative case histories the book discusses patterns of childhood death and explores the basic elements of physical emotional spiritual and practical care for children and families experiencing a child's life threatening illness or injury
