Soccer, which is technically known as "association football," was in fact the forerunner of modern football. Soccer was the only football-type game in the United States until American-style football became popular in the 1870s.

Today, soccer is included in the physical education programs of many schools. In addition, many elementary and high school students play it in organized after-school programs.

Soccer demands physically fit players since the game includes running as much as three or four miles per match. The player's arms, legs, heart and lungs all get a good workout during the average soccer game.

Soccer was also played in various forms in England for about four hundred years before
