In addition to detailed coverage of management functions and organizational principles, the book emphasizes diversity principles and developing police agencies as learning organizations. A concluding chapter covers contemporary issues including community engagement, collaboration, globalization, racial profiling, mass media and social media, cyber crime, terrorism, and homeland security. The eighth edition includes analysis of timely matters such as technology, the police intelligence function, information sharing, interagency cooperation, and more. Each chapter is enhanced with learning objectives, discussion questions, and feature boxes. Six case studies with discussion questions provide opportunities for the reader to review real world situations.
