Political Science An Introduction 10th Edition:

Power & Choice W. Phillips Shively, 2018-08-10 Power Choice provides a general comparative introduction to the major concepts and themes of political science The author's goal when writing the book was a text that is conceptually alive and that engages students with concrete examples of analysis without losing them in a clutter of definitional minutiae

Introduction to Political Science Raymond Garfield Gettell, 1910 Politics, **Power and Choice** W. Phillips Shively, David Schultz, 2022-04-13 A truly comparative introduction to political science that reflects the diversity of approaches to the discipline Power Choice offers an in depth look into the nuances of politics through the analysis of collective choices for a group or state through the use of power Organized topically and using extended case examples from around the world Power Choice provides undergraduate students with a clear and engaging introduction to political science and comparative politics The 16th Edition has been updated to address the issues raised by the covid 19 pandemic as well as the impact the Trump and Biden presidencies have had so far upon the world and its democracies including challenges in states such as Hungary where illiberal democracy and nationalism are on the rise The authors have also included discussion of the impact of the death of George Floyd upon race relations in America and how issues such as growing inequality are impacting politics This edition adds examination of women's economic development and the rising importance of LGBTQ issues globally Teaching Undergraduate Political Methodology Brown, Mitchell, Nordyke, Shane, Thies, Cameron G., 2022-08-12 Providing expert advice from established scholars in the field of political science this engaging book imparts informative guidance on teaching research methods across the undergraduate curriculum Written in a concise yet comprehensive style it illustrates practical and conceptual advice alongside more detailed chapters focussing on the different aspects of teaching political methodology **Social Transformation and State Governance in China** Xianglin

Xu, 2020-06-08 This volume is a selection of Chinese political scholar Xianglin Xu's published works spanning nearly 20 years of research that explore and discuss the socio economic transition in China under state political reform Contextualized within the decades following the 80s the author analyzes patterns observed from empirical studies and breaks down the underlining reasoning conditions and functionalities behind the incremental reform policies pushed forward by the Party and government The collection is broken up into four sections the first provides a general framework and theoretical historical introduction to social transition research in the case of China the second section discusses the underpinning logic behind political reform in China and practical concerns the third section follows with discussions on reform policy practices within China including application and trajectory the final section concludes with an analysis of reform within state institutional infrastructure and policy innovation **The National Union Catalog, Pre-1956 Imprints**, 1968 B.H. Blackwell B.H. Blackwell Ltd, 1928

Media and Communications Policy Making Robert G. Picard, 2020-03-25 This textbook focuses on how media and communications policy is made and what influences its design It explores the structures and processes in which policymaking

takes place worldwide the factors that determine its forms influence its elements and affect its outcomes It explores how to analyze policy proposals evaluate policy and use policy studies approaches to examine policy and policymaking Truly international in scope it lays out the variety of political social economic and institutional influences on policy the roles of industries and policy advocates in the processes and issues and factors that complicate effective policymaking and skew policy outcomes This textbook is a valuable resource for advanced undergraduate and postgraduate students The Scottish Political System James G. Kellas,1989-01-26 First published in 1973 Professor Kellas s account of Scottish government and politics has long been recognised as the standard textbook in the field Its scope includes a definition of the Scottish political system and critical descriptions of Scottish administration central and local parliamentary activity parties electoral behaviour and pressure groups Scottish nationalism is given a wider interpretation than usual covering not only the support for the Scottish National Party but the manifestations of national feeling in Scottish life generally The General Election of 1987 provided further evidence of the distinctive character of politics in Scotland with the Conservative Party reduced to ten MPs barely sufficient to fill the existing Scottish ministerial posts In a new postscript Professor Kellas looks at the principal political developments of the period since 1983 and examines the political and constitutional implications of the current imbalance of forces as between Westminster and Scotland **Ibss: Political Science: 1994** British Library of Political and Economic Science at the London School of Economics,1995-12-08 The IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences **Finding List of the Social Sciences, Political Science, Law, and Education** Virginia State Library,1910 **Political Science in Africa** ,2023-12-28 Bringing together African and international scholars this book gives an account of the present state of the discipline of political science in Africa generating insights into its present and future trajectories and assessing the freedom with which it is practiced Tackling subjects including the decolonization of the discipline political scientists as public intellectuals and the teaching of political science this diverse range of perspectives paints a detailed picture of the impact and relevance of the political science discipline on the continent during the struggles for democratization and the influence it continues to exert today **Contested Truths** Daniel T. Rodgers,1998 This is a witty erudite and original synthesis which in spite of its brevity gives density and connectedness to two centuries of American political thought **Beyond the Boundaries** Georgia A. Persons,2017-09-29 In the past African American aspirations for political office were assumed to be limited to areas with sizeable black population bases By and large black candidates have rarely been successful in statewide or national elections This has been attributed to several factors limited resources available to African American candidates or identification with a black liberationist ideological thrust Other factors have been a relatively small and spatially concentrated primary support base of black voters and the persistent resistance of many white voters to support black candidates For these reasons the possibility of black

candidates winning elections to national office was presumably just a dream. Conventional wisdom conceded a virtual cap on both the possible number of black elected officials and the level of elective office to which they could ascend. But objective political analysis has not always made sufficient allowances for the more universal phenomenon of individual political ambitions. The contributors to this volume explore the ways ambitious individuals identified and seized upon strategies that are expanding the boundaries of African American electoral politics. This volume is anchored by a symposium that focuses on new possibilities in African American politics. Both the electoral contests of 2006 and the Barack Obama presidential campaign represent an emergent dynamic in American electoral politics. Analysts are beginning to agree that the contours of social change now make the electoral successes of black candidates who are perceived as ideologically and culturally mainstream increasingly likely. The debate captured in this volume will likely inspire further scholarly inquiry into the changing nature and dimensions of the larger dynamic of race in American politics and the subsequent changing political fortunes of African American candidates.

Oxford University Gazette University of Oxford, 1929

Terrorism in Kenya and Uganda Anneli Botha, 2016-11-02 This book analyzes some of the commonly accepted causes of radicalization within the context of four organizations in eastern Africa. It identifies and discusses the facilitating agents needed to enable radicalization and recruitment and answers one of the most fundamental questions the public and scholars alike are confronted with: Why are all people confronted with the same external circumstances not being radicalized? Practitioners and policymakers will realize that although one can learn from the experiences of others developing and implementing effective counter radicalization strategies should be shaped around the unique circumstances of the specific organization.

Politics in Europe M. Donald Hancock, Christopher J. Carman, Marjorie Castle, David P. Conradt, Raffaella Y. Nanetti, Robert Leonardi, William Safran, Stephen White, Michelle Hale Williams, Mary N. Hampton, 2018-05-09 Politics in Europe Seventh Edition introduces students to the power of the European Union as well as seven political systems: the UK, France, Germany, Italy, Sweden, Russia, Poland, within a common analytical framework that enables students to conduct both single case and cross national analysis. Each case addresses the most relevant questions of comparative political analysis: who governs on behalf of what values with the collaboration of what groups in the face of what kind of opposition and with what socioeconomic and political consequences. Packed with captivating photos and robust country descriptions from regional specialists, the Seventh Edition enables students to think critically about these questions and make meaningful cross national comparisons.
