

Population Distributions

How does population distribution affect the outcome?

Why?

Alaska voters were 100% white and 100% female. In the largest case in the United States, are white + populations of nearly 100,000 people voting the same? Populations in Alaska, Texas, New Jersey, and other smaller states and towns have populations of nearly 1 million. Are voters in 10,000th of the 10,000th of the total vote are represented equally? What are the reasons that the single popular vote system does not work well with this representation?

Scenario 1 – Population Density and Distribution

1. Name each state.

2. Which state has the most voters?

3. Which state has the least voters?
