University-Industry Technology Transfer in the UK: Emerging Research and Opportunities Wynn, Martin, 2018-12-21 Since the turn of the century technology transfer and innovation has played an increasingly important role in government policy for reinvigorating and supporting a country's industry. This has been fueled by technology transfer from third parties such as universities but due to the rapid evolution of the external environment of technology companies require regular upgrades to information systems and technical infrastructure and adjustments. *University-Industry Technology Transfer in the UK: Emerging Research and Opportunities* provides innovative insights into how technology transfer has operated in university company projects undertaken in small to medium sized enterprises. Highlighting 19 different cases drawn from companies in the regions adjoining the University of Gloucestershire UK from a qualitative case study approach the content within this publication analyzes contract packers the manufacturing industry and research organizations. It is a vital reference source for managers business owners education administrators researchers academicians professionals policymakers and graduate level students seeking coverage on topics centered on case examples of technology transfer projects in different industry sectors. *Ely Energy Center Project*, 2010

Accountability and Security in the Cloud Massimo Felici, Carmen Fernández-Gago, 2015-03-31 The First A4Cloud Summer School has been one of the first events in the area of accountability and security in the cloud. It was organized by the EU funded A4Cloud project in collaboration with the European projects CIRRUS, Coco Cloud, CUMULUS and SPECS. Cloud computing is a key technology that is being adopted progressively by companies and users across different application domains and industries. Yet there are emerging issues such as security, privacy and data protection. The 13 contributions included in this volume cover the state of the art and provide research insights into the following topics: accountability in the cloud, privacy and transparency in the cloud, empirical approaches for the cloud, socio-legal aspects of the cloud, cloud standards and the accountability glossary of terms and definitions.
