

Rates to Ratios: Guide students to complete the next flow map where the rate is given, and then they move to unit rate, then to different ratios.

8. Complete the model below now using the rate listed below.

Ratio	Unit Rate	Rate
		6 ft/sec

Ratios: Answers may vary
6:1 60:10 12:2

Unit Rate: 6

Discussion

- Will everyone have the same exact ratio to represent the given rate? Why or why not?
 - Possible Answer:* Not everyone's ratios will be exactly the same because there are many different equivalent ratios that could be used to represent the same rate.
- What are some different examples that could be represented in the ratio box?
 - Answers will vary:* All representations represent the same rate: 12:2, 18:3, 24:4.
- Will everyone have the same exact unit rate to represent the given rate? Why or why not?
 - Possible Answer:* Everyone will have the same unit rate for two reasons. First, the unit rate is the value of the ratio, and each ratio only has one value. Second, the second quantity of the unit rate is always 1, so the rate will be the same for everyone.
- Will everyone have the same exact rate when given a unit rate? Why or why not?
 - Possible Answer:* No, a unit rate can represent more than one rate. A rate of $\frac{18}{3}$ feet/second has a unit rate of 6 feet/second.

Teaching and Learning for the Twenty-First Century Fernando M. Reimers,Connie K. Chung,2019-01-02 This book describes how different nations have defined the core competencies and skills that young people will need in order to thrive in the twenty first century and how those nations have fashioned educational policies and curricula meant to promote those skills The book examines six countries Chile China India Mexico Singapore and the United States exploring how each one defines supports and cultivates those competencies that students will need in order to succeed in the current century Teaching and Learning for the Twenty First Century appears at a time of heightened attention to comparative studies of national education systems and to international student assessments such as those that have come out of PISA the Program for International Student Assessment led by the Organisation for Economic Co operation and Development This book s crucial contribution to the burgeoning field of international education arises out of its special attention to first principles and thus to first questions As Reimers and Chung explain much can be gained by an explicit investigation of the intended purposes of education in what they attempt to teach students and in the related questions of why those purposes and how they are achieved These questions are crucial to education practice and reform at a time when educators and the students they serve face unique pressing challenges The book s detailed attention to such questions signals its indispensable value for policy makers scholars and education leaders today **Policy, Professionalization, Privatization, and Performance**

Assessment Theresa J. Gurl,Limarys Caraballo,Leslee Grey,John H. Gunn,David Gerwin,Héfer Bembenutty,2016-02-19 This volume reviews the background of mandated teacher performance assessment with an emphasis on policy privatization and professionalization The authors discuss the potential impact of mandated teacher performance assessments on teacher education in the content areas of mathematics English and social studies The perspectives and empirical research examined in this conceptual analysis illustrate the various ways in which the Stanford Center for Assessment Learning and Equity SCALE Teacher Performance Assessment edTPA promises to restructure teacher education in the United States The authors consider both the affordances and the constraints that teacher performance assessments offer for teacher preparation programs and conclude by discussing the implications of the intersections among policy privatization professionalization and performance assessments of teachers as well as the relationship between performance assessments and teacher education The impact of the edTPA on the development of signature pedagogies in teacher education is also discussed Teaching Mathematics Using Popular Culture Elana Reiser,2015-11-09 Mathematics teachers often struggle to motivate their students One way to cultivate and maintain student interest is for teachers to incorporate popular media into their methodology Organized on the subject strands of the Common Core this book explores math concepts featured in contemporary films and television shows and offers numerous examples high school math teachers can use to design lessons using pop culture

references Outlines for lessons are provided along with background stories and historical references Approaches and Strategies in Next Generation Science Learning Khine, Myint Swe, 2013-01-31 Approaches and Strategies in Next Generation Science Learning examines the challenges involved in the development of modern curriculum models teaching strategies and assessments in science education in order to prepare future students in the 21st century economies This comprehensive collection of research brings together science educators researchers and administrators interested in enhancing the teaching and learning of next generation science **Master the New York City High School Admissions Tests**
