Klug, 2012-11-28 The majority of American Indian students attend public schools in the United States However education mandated for American Indian students since the 1800s has been primarily education for assimilation with the goal of eliminating American Indian cultures and languages Indeed extreme measures were taken to ensure Native students would act white as a result of their involvement with Western education Today s educational mandates continue a hegemonic one size fits all

approach to education This is in spite of evidence that these approaches have rarely worked for Native students and have been extremely detrimental to Native communities This book provides information about the importance of teaching American Indian students by bridging home and schools using students cultural capital as a springboard for academic success Culturally Responsive Pedagogy is explored from its earliest beginnings following the 1928 Meriam Report Successful education of Native students depends on all involved and respect for the voices of American Indians in calling for education that holds high expectations for native students and allows them to be grounded in their cultures and languages
